## PREFACE,

WHEREIN

The Authors of these Annotations ensuing, present some Important Considerations of the happy Progresse of the Gospel in this Kingdome : together with an account of their undertaking and performance of this Service for the clearing of the Sacred Text to the understanding of the Christian Reader.

E cannot but observe and take it to be our duties to acknowledge (if we make any good use of our reason, (as men) or of our Religion, (as Christians) that for the best meanes of holy information of our minds, and the falvation of our foules, and for the most freee and frequent use of such means (besides many comfortable Accommodarequestions for our bodily welfare) no people of the world hath had more cause, to set up memorials of gratitude for the goodnesse of Godunto them, then we of this Island, who have (for a long time) been as the In-

habitants of the Abountain of the Lord of Hofts, where he hath made unto his people, a feaff of fat things, a feaff of wine \* on the Lees, of fat things full of marrow, of wine \* on the Lees will or drawn refined: as the Prophet Island 25. werf. 6. elegantly settleth forth the fulnesse and delicacy from the leen. of his Spiritual provision.

For fince the reformation of Religion, almost miraculously wrought, (though we professe to beleeve Gods word, without the pawn of a miracle to make it good) for it prevailreflect o beterve Gous wort, without the pawer of a minetic of the Popilip party ) by weake in-druments, (a child and a woman) and being begun by him, and (after a red parenthefis of perfecution) by her brought on toward perfection; toward it we may fay, not to it, for God referved further advances and neerer approaches, to that fair mark for after-times, we have fince then, (we fay) enjoyed, a fuperabundant measure of Sacred and fecular bleffings, above other Nations, and have had our greatest share of the best of

For what (for the one fort) more excellent then the Gospel of peace, the power and purity of the meanes of grace? And what better for the other, then fuch and fo long tranquillity of Church and State, (thoughnot equally either pure or quiet in \* both Kingdomes of great Britain) and pleaty withall, as (untill of late) have been continued to us: which if we \* Effections have not duly valued in their fruition, (while we had them) God may most justly (as he socione pri-hath begun to do) make us to know their price by their losse; and so upon our forfeiture of primiting in fogreat favours, the faying of the Wife man may be wofully verified on our part, He that en que rim month creafeth knowledge, encreafeth forrow, Ecclef. 1.18.

That such infelicity may not befall, or fallen upon us, may neither encrease nor continue, quod circiter untill it quite overwhelm us, it will much concern us, by a ferious and confiderate review annas plusming. of the times past, to note by what steps, and degrees, the good providence of God hath Schilmatz ne

called and conducted us, out of darknesse into his marvellous light, 1 Pet. 2. 19. which our eyes have feen, and to the happy state (for spiritual proficiency) which we have had, above that which any of our forefathers have known in former times. For though God being omnipotent, could do all things as perfectly at once, as in the duration and fuccession of many Ages: yet he is pleased, for the most part, by gradual accesses, to promote his own operati-

ons, to the period of their perfect accomplishment. We fee this in the work of the visible World, which he could have furnished and finished, fo foon as he began it, the first minute of the first day, as well as the last of the fixt: but he first made a groffe dark and confused masse of general matter, out of which day by day, he drew the feveral parts of the enfuing dayes works. He could have made both Light and Firmament, and Sun and Moon and Starres, and all the rest in one instant, but (that we might not with too quick and transient Cogitations passe over his works) he took one day for the Light without the Sun, and another for the Firmament, and another for the garnishing of it, with those glorious lamps, which shine unto the World by day or by night; and man the best of his creatures (differnable by fense) he reserved for the last day, and for the last work of that day; and then (when man was made) what he had called but good before, he called (in conclusion) very

good, Gen. 1.31. and there fetting up his rest, he made no more. Answerable hereunto, hath been the progresse of his handmaid, Natures working, from that day to this; as we may trace her in her footsteps, from the feed time of conception of all her children (of what kind soever) to the harvest of their ripe and perfect growth; and we may observe the like gradual proceeding towards spiritual perfection (to which what we have now faid, serveth but by way of manuduction:) for evidence whereof, many particulars of moment might be proposed, but we will single out a few such, as are most proper and pertinent to the matter in hand, and those we will reduce to these several heads.

The first concerning Preachers, and preaching of the Word, and the administration of the Sacrament of the Lords Supper.

The fecond, the Translation of the Scriptures into a tongue understood by vulgar peo-

The third, of the necessity and utility of Annotations, for exposition of difficult places. The fourth, especial confiderations upon some Notes and Annotations in particular.

For the first, in the beginning of the reign of that renowned Queen, (whose zeal and confrancy to true Religion, hath embalmed her name to perpetual memory) when the abomination of the Masse was banished out of the Church, and Idols were demolished rather by general Decree, then by general execution of what was decreed; (for through the doting of superstitious indulgence, or through the negligence and unfaithfulnesse of inferiour Officers, some of them were reprieved from ruine, and (as it now appeareth) referved for a time of more exact reformation) and Idol-Shepherds removed from the Sheepfold of Christ, and others to be chosen for the overfight of their Pastoral charges: there were then so few able and Orthodox Divines to be found (in the Land) that there was a necessity of admitting many such into the Ministery, as were neither Preachers, (by profession) nor Schollers, (by education) but meere reading Protestants fincerely affected to the truth of Religion.

It may probably be deemed, that there were then scarce so many well qualified Pastours throughout this whole Land, as might at some times of late have been numbred in this one City of London. It was then as rare a thing to find a Pulpit with a clapper, (to use the phrase of \* Father Latimers Sermons) as a Bell without one. For the Pulpit (in many places) was as feldome used, by the unpreaching Clergy of those times, as the Santtum Santtorium, by the high Priests of old; and they might be called high Priests in conformity to them, by reason of their local exaltation of themselves (about once a year) above the heads of the People.

In respect of whose famine of the word; some thought themselves provided for (in a compe tent measure) if after many weeks fasting, they might be sure of a Sermon once a Quarter. Af ter that, their provision was amended, and an augmentation of Sermons made, (from four to twelve a year) by an Order from the higher powers, which more commended the care of the Governours, then the observation of it, did the zeal of the Ministers, who failed of performance, (for that conflitution notwithstanding ) the people in many places were not so constantly supplyed, with one Sermon every moneth, as in most they are now, with two Sermons every Sabbath throughout the whole year: Besides divers settled Lectures, Exercises, and other occasional preachings in the week dayes.

So that in our dayes we see God hath spoken the word, and great is the company of Preachers. b That of the (as b one Translation rendreth it.) P/al. 68.11. and Preachers speak the word, and great is the reading Pfalms multitude of Sermons: which have both abounded in number, and also excelled in good-

neffe in our Church, fince we have been removed from the Tyrannical reign of that Archhypocrite of Rome, who usurping the title of principal Bishop, Pastor, and Doctor of the Church, doth seldome or never perform the principal Office of a Bishop, Pastor, and Doctor of the Church, doth seldome or never perform the principal Office of a Bishop, Pastor, and Doctor of the Church: which is (as the Pfudo-Synod of Trent is forced to confesse) to preach the count. Tridate. Word of God unto the people.

And if ever those Masters of the mystery of iniquity having long fince, set on foot, their designe, tomake this Kingdome retrograde in Religion, in turning toward the Tenets of Doctrine, and form of worship of the Romish Church, have any cause to hope to mount it on horseback, it must be by putting down the most found, sincere and zealous preaching of the Word, as by some experimental preparations we have seem of late, and our reason may fore-fee, and fore-cast for the time to come; for this hath been, and it is like may be hereafter, their manner; who labour to extinguish (at least to eclipse) the light of Evangelical Doctrine: First by picking a quarrel, with the most sufficient, diligent, and conscionable Preachers, to stop their mouthes, imprison their persons, or to drive them from

In this respect how our stock of Spiritual treasure is increased, the Word of God dwelling fo richly, as the Apostle requireth, Colof. 3. 16. (both in us, and among us) how much our portion is bettered, by plenty of the fincere milk of the Word for the Babes of Christ, and of fireng meat for fuch as are of more maturity of age, and Judgment; How much more comfortable our English Communion is, then their Latine Maffe; and our Lords Table better furnished then their Alta, (though gorgeously set our with gilded or golden pictures) with Bread being solid, substantial, nor meerly superficial, as their leaf-tile maser, our Wine pure and generous (not embased as theirs) with mixture of mater, and copiously powred out to all the people, (according to the Lords liberal allowance to the communion of Saints) not facrilegiously with-held; (as an especiall priviledge of the Priefts) how much our condition is amended by fuch particulars, we may cleerely perceive, and should never forget, with thankful hearts, and affectionate expressions to ac-

Our second consideration may be set on the Translation of the Scripture into a Language understood by unlearned people, that they might fearch the Scriptures, and by searching of them might find in them, what is most to be desired, eternal life; for they are Books not for the Clergy onely, (though for them especially) for which cause some Conneels have decreed, 4 That Bishops should have them so much in their eyes, as not to look besides them in any Semilia books of Gentle Learning: And that they and the Guefts at their Tables should have them will east their cares, some reading to them while they fase at meat to prevent idle sales, and consulting the sales, and the sales at their cares, some reading to them while they fase at meat to prevent idle sales, and consulting to the sales, and consider the sales, and consider the sales, and the sales wife, yea for women as well as men: otherwife Saint Hohn would not have written one of evident consisting the selection of th his & Epiftles to one of that Sex under the title of an elect Lady.

By his example, did that zealous and learned Doctor Hierome write many Epiftles un-verum militae to women, wherein he exhorted fome of them to fuch a fettled and ferious reading of those min minimum. Sacred writings, as not to lay them down out of their hands, h until being overcome with safficantur, as fleep, and not able any longer to hold up their heads, they bowed them down as it were to failthe button, of a the leaves, below them, with a kiffe: and he gave advice to mothers, (before their maid) to Ca- fair printing. techil, their daughters, out of the Scriptures, and to fet them to learn by heart a k portion of them to. Conci. for a daily task.

In this Sacred exercise, they that with devotion and diligence beflow themselves, (besides conviction de many other Spiritual advantages) may find a perfect direction, to their confeiences, for all Sciptura allduties, and infallible refolution of all doubts in cases which concern them; yea an unspeak. Not without great cause then hath it been held so great an happinesse to the Church of God, for children to read their Fathers mind, and good will towards them in their Mother Tongue; that a folemn Feast hath been set up, and celebrated for it; such an one was that of the Germane Protestants, which they made for a grateful remembrance of the Dutch Translation of the Bible among them: for which, though some of their Popish opposites " derided them, yet the wifer fort of that feducing Seet did not disdain (in part) to follow them, when (not without some contradiction to their own received principles, and former practife) they translated, first the New Testament at Rhemes, and fince the Old at Domey in

It was no doubt their new deliverance from the blindnesse and bondage of the Romish Religion, that made those pious Pretestants so much to take to heart that Light and Liberty. And if our longer enjoyment, of a greater Light, have not dazeled our eyes, and our greater Liberty have not made us Libertines, and loosened the bond of gratitude to God, (our most gracious Benefactor) we will hold it our parts, to entertain the apprehension of the like fayour, with the like thankful affections, though our expresses proceed not to such a publique folemnity. And we must consider it not onely in kind, but in respect of \* continuance and degree of excellency for the Bleffing, is so much more precious as it draweth neerer to perfection in our dayes: whereof we shall present the Reader with a brief Advertisement, observing the order of the time, and degree of increase of supernatural light, shining more and more, (through the several Translations of the Word of God, into the Language of our Countrev) unto the perfect day, of the present Age wherein we live.

The first good newes of this kind, which came to the notice of the Inhabitants of this Island, was in the year 700. or as some write, 709. when " Adelme Bishop of \* Sherborne (for both Bilhopricks and Archbilhopricks were anciently otherwise divided and entituled then now they are) translated the Pfalmes of David, into the Saxon Language, which is thought to have suffered shipwrack by the Tempest of the P Danish Wars, wherein the Churches (which were the learned Treasuries, or publique Libraries of those times)

About twenty, or at the most thirty years after, Beda translated the whole Bible into the afterward uni- fame Tongue, as Master Fox observeth in his Epistle Dedicatory, to Queen Elizabeth, set ted to the See before his Translation of the Gospels out of the Saxon Tongue, Printed Anno 1571. Yet \* elsewhere he maketh mention onely of the Translation of S. Fohns Gospel as the last labour

After Beds about two hundred years, King a Alfred undertook the Translation of the Pfalter, happily either to supply the loss of that of Adelme, or to better that of Bedaes: for Bedaes Translation was simple without any curiosity of Stile; and of Alfred, it is said of him, that 'none of the English was more acute in conceit, or more elegant in expression then he was: which was the more to be marvelled at, because he was twelve yeer old, before he knew a letter on the book; but he \* ended his life well-neer the beginning of his work. having scarce finished the first part of it.

The Translation of the Bible of most note after these, (and whether any came between we do not find) is that of Fohn Wickliffe, which was best liked, and most used, by the better fort of Christians in the reign of King Richard the Second, but so much maligned by the Popish party, that it was condemned in a Provincial Synod at Oxford, held under " Archbishop. Arundel, Anno 1406. and after he was dead and buried, by a Decree of the \* Councell of Constance, about the year 1412. his bones were to be unburied, and his Books to he burned: And so they were, not onely where the Decree was made, but in Bohemia, where Subincus (Archbishop of Prague) making diligent inquisition after them, found to the number of two hundred Volumes of his composing, (most excellently written, and richly adorned with boffes of gold, and rich coverings) and burnt them all. And in y England there was a firit Angl. 1.3.6.4. Proclamation for abolishing of them by King Henry the Eight, Anno 1546.

And though the Papifts had an especial spight at his Translation of the Bible, both because it was a Translation into the Vulgar Tongue, and such a Translation, as they accounted most Heretical, yet (by Gods providence) some Manuscript Copies of it (as well as of other of his Books) were preferred, which are extant to this day, in divers 2 Libraries of this Kingdom, particularly mentioned in the Margent; which is attefted by a very \* learned Authour, much elegantist : Mr. versed in the most Authentick Records and Copies of ancient Writers.

THE PREFACE.

Next unto Wiekliffes Translation, was that of John "Trevifa, who undertook and finished Johan Trethe Translation of the whole Bible in English, at the intreaty of his Patrone the Lord Barkley, was given by the Casand as \* Patrone the Lord Barkley, \* Ma gener & point and the Casand as \* Patrone the Lord Barkley, \* Ma gener & point Casand as \* Patrone the Lord Barkley, \* Ma g Anno 1397. in the reign of Richard the Second, as \* Baleus writeth, though fome fay it was bissis visavin in the year 1400. and in the reign of Henry the Fourth.

For prevention whereof, a Proclamation was published by King Henry the Eight, bearing & For this, pag. date, July 8. 1546. prohibiting after the first of August, all persons to receive, take, or keep in his 387. or their possession, the Text of the New Testament, of Tyndals or Coverdales Translation in English, or any Books in the English Tongue, under the names of Frith, Tyndall, Wickliffe, Foy, Roy, Sarill, Bale, Barnes, Coverdale, Turner, Tracy. But above all, the name of Tyndall and his Translation were most traduced, which were exposed to more hate and contempt by means of Sir Thomas More, who used his wit (which was as sharp as his Spleen) to cavill at his Writings, and his power, which was as great as both, (being Lord Chancellour of England) to suppresse them, especially his Translation of the Scripture: which that it might the more undoubtedly be done, (befides the Proclamation forementioned) there was an 8 Act of Parliament passed; \$39.35.61K. to abolift Tyndals Translation by name, with divers other English Books, yet with allowance about the Translations, for private use, and with limitation and exception of feveral forts of with 1766.

Notwithstanding Tyndals Translation was not smothered, but came to light, and was more acceptable for the correction of it by Thomas Matthewes, which was published as his Translation with Annotations, and printed by special priviledg of King Edward the Sixt, An. 1551. and so was that of Coverdales allowed by publick Authority, which bore his name, because he made fome corrections of Tyndals.

And from h the beginning of Edward the Sixt, Anno 1549, towards the twentieth of Queen h Mr. F.S.Ob. Elizabeth, Anno 1577. the Bibles of the English Translation used in Churches, were either Tyndals, few on the Edition of the or Coverdales; but that Tyndals was the chief and most warranted may thence be collected, for that Bible in vulgar the reading of Plalmes are in the Service Books to this day, according to his Translations, (as some tongues, s. have observed) the Episses and Gospels are also conformable to the same Translation. In the M.S. year 1560. were the Geneva Interpretations, and Annotations fet forth. And Anno 1577, there was an English Edition of the Bible published by divers Bishops in a large Volume, yet that from General was generally more used, and more esteemed then any of those that went before it, untill the year 1612. when the last Translation procured by King Fames was first imprinted, which for the Text thereof, may give better fatisfaction to fuch as have ability, to compare the Original of both Testaments and their Translations together.

There were other English Translations of the Bible, some of them very ancient (i as the downward of them there the though the time of them there is the whole. phrase of them sheweth) though the time of their publication be not mentioned: as those gover, 1 cm, s. two in the Kings Library at S. Fames, and some later: but these sufficiently shew, what for this support of the control of the particular we have cause to observe, (with thanksgiving to God) viz. how much our holy dammet, portion is improved to the benefit of common Readers.

At the first onely some parcels of the Bible were Translated, we have it all, we have it im- 1 Loca ad offemediately Translated out of the Original by learned men in both Languages; the first Tran-militanum mental mental mental property of the Company of the Comp flations into English were for the most part taken out of the Vulgar Latine, which was so amount falle, that Islato, Clarius, a famous Papist, (first a Fryer, afterward a Bishop) professeth in sac 18th, Clarius of Clarius of the Company of the Co left out) that he found no fewer then 18000 . places to be amended.

In former times though the Bible were Translated into English, yet was it not to be read in distriction.

m Churches

m The Bible Stat.34.35. of " Ibid.

" Churches, but onely by particular persons at home, nor by all generally, for \* no woman, Artificers, Apprentices, Fourney-men, Servingmen, none of the degrees of Yeomen, or Husbandmen, in any Church, nor Labourers, were permitted fo much as a private reading thereof. We have generally a free use of them both in private and in publique; There hath been a prohibition of Annotations to be Printed with the English Bibles by "Act of Parliament, our Liberty in that respect is much enlarged, which is that, which we are more especially to note, and that is the next thing

in order, and the third in number we are now to speak of. The third thing which improve th the price of our portion in Religion, is the necessary use and great benefit of Expositions and Annotations upon the Bible, to render the right meaning of the words of the Translation, as the Translation doth of the words of the Original; for though the Scriptures may have their use, and force upon the affections of ignorant Readers, n Codicentago- at first fight, without any serious search into their hidden sense, and may have a work upon the Will to encline it to good, or withdraw it from evil, (as it was with " Auftin, in his casual and fudden reading of the Apostle, Let us walk honestly as in the day, not in rioting and drunkennesse, not in chambering and wantonnesse, not in strife and enwying, Rom. 13.13.) yet what Peter faith of his beloved brother Pauls Epistles, there are some things which are hard to be understood, tionibus: nec 2 Pet. 3.15,16. may be truly faid of many other parts of holy Scripture, especially in the books of Genesis, Feb, Canticles, Ezekiel, Daniel, some other of the Prophets, and the Revelation.

To which he that feriously reads them may apply the pathetick Admiration of Austin. There is a wonderful profoundnesse in thy words, a wonderful profoundnesse oh my God, a wonderful profoundnesse: it is a matter of horrour to pierce towards the depth of them, an horrour of honour, and terrour of Love: So that if the Question were put to most of those (who are daily conversant in the reading of the Bible, and read it by course, from the one end to the other) which Philip put unto the Eunuch, Understandest thou what thou readest ? their Answer (for divers Texts) might be the same with his ; How can I except some one should guide me ? Act. 8. ver [.30,31.

The Question implyeth, that he that readeth should (if it may be)understand what he readinterdere inea, eth; and our Saviour his precept enjoyneth an endeavour to that purpose, where he saith, borror bonoris Who fo readeth let him understand, Matth. 24.15.

And the Answer directeth the Reader to defire and to seek for a guide, and though now ris. ibid. lib.12. there be none to be found whose guidance is infallible (for the best guide may be sometimes to feek, and feeking may be at a loffe, for the proper fense of some obscure places of the Scripture) yet may he make fuch a probable interpretation of them, as may prevent a dangerous misconstruction of an imprudent inconsiderate Reader.

It is conceived (by some of eminent note) that if Origen had met with a sound Comment or Marginal Note upon Matth. 19.12. it might have prevented his P Castration of himself, where-P Eujeo. Lector.

But in expounding of Scripture, he was 19 Doctor to others, almost before he was a Disciple to recibis Origen. any, and was so indeliberate in his Dictates, and over indulgent to his wit, that as Erasmus faid of him, he would make a Book, while a man might stand on one foot, which made the torum Magifiri Books of his making to be numbred to no leffe then ifix thousand.

Nor had those ridiculous herefies of Peputians, Seleucians, and Meites, and fuch like Distinui, Hie. haply ever been hatched, if the places of Scripture, on which they founded their erroneous opinions, had been fenced with an Orthodox exposition, against misconstruction.

Nor had (it may be) fuch groundleffe and fond fantafies, as fome have fet abroach, and fpread abroad, been the fruit of their familiar reading of the Word of God, if some Exposiseripsifie, refert tors or Annotationers, had been ready at hand, to shew them the sense of difficult sayings; In which respect (by the goodnesse of God) the modern times are more happy, then many Tom.2.pag.193 Centuries of anciently precedent ages.

Which leads us to our fourth confideration; And it is concerning fome Annotations in 10. Haref. 59. particular, and (among them) principally to the Marginal notes of the Geneva Bibles, and of u Ibid. Her. 63. our own, which we now present to publick view the second time, being diligently reviewed, and much enlarged, were at first occasioned by them.

The Annotations of the Bible of most note untill of late, were those of Liranus, Strabus, Vatablus, Junius and Tremelius, and fince them Pifcators and the Italian and Dutch Annotations, (which we shall have occasion to mention again) have been much approved by the learned, in whom we may observe an advantagious proficiency by Succession of time; The later (they that came after, for the most part, making use of those that went before) advancing in clearnesse, and soundnesse of Interpretation, above the former.

In English those that have been best known, and most used amongst us, have been the Gene-24 Annotations, made by our zealous and laborious Countrey men, who in Queen Maries daves, betook themselves to that City (as to a City of Refuge from the reach of that perfecution, which raged as hot as fire, while the reigned over this Realm, and the Pope over her.) In the time of their exile there (as they professe in their Presatory Epistle to their Brethren of England) they were for the space of two years and more, day and night, with fear and trembling, occupied in the Labour of their English translation with notes upon it : which when they had finished. in the year, 1560, they presented it, with an especial Dedication (bearing Date the same year) to the recomparable Princesse Queen Elizabeth; which was received with such acceptation of Her Majesty, and general liking of Her people, that from that time, untill the edition of the last translation of the Bible, it was Printed by Hers, and Her rightful and Royal Succession fours Printers, above thirty times over.

Though it was their mishap (without any merit) to be noted with a black Coal, as guilty of mif-interpretation, touching the Divinity of Christ and his Messiah ship, and as Symbolizing with Arrians and Fews, against them both: and this was publickly charged upon them by an Academical Doctor \* in a folemn Affembly of the University of Oxford; But of this crime they were more then absolved by \* Sir Thomas Bodly (the famous Founder and Furnisher Dr. H. of the publique Library) his Letter written in their defence and praife, which was read by the Amnusiri.

WHence were divers of the Stationers and Printers of London induced to petition the Com-Hiltee of the Honourable House of Commons, for Licence to Print the Geneva Notes upon the Bible, or that some Notes might be fitted to the new Translation: which was accordingly granted, with an Order for review and correction of those of the Geneva edition, by leaving out fuch of them as there was cause to dislike, by clearing those that were doubtful, and by Tupplying flich as were defective.

For which purpose Letters were directed to some of Us from the Chair of the Committee For Religion, and personal invitations to others, to undertake and divide the Task among Us, and to cometh in our part, whereof we shall give the World a true and just account in that which followeth.

Hill as we had no thoughts of fuch a fervice untill by Authority we were fo called unto it, To finee we have accepted of it, we have thought of nothing so much, as how we might discharge it, with best advantage to the glory of God, and the instruction of his people, and therefore we have pur our felves to much more pains (for many moneths) in confulting with many more Authors, in leveral Languages, then at first we thought of, that (for the propriety of the Original Text, for pertinent and profitable variety of versions, for consonancy of parallel Scripeures, and for perspiculty in clearing of the darkest places) we might bring in such Observations, as might not only serve to edifie the ordinary Reader, but might likewise gratifie our Brethren of the Ministery, at least such among them, as have not the means to purchase, or lelfure to perule, fo many books, as (by Order of the Committee) we were furnished withall, for the finithing of the Work, committed to our hands.

Among which (as we were directed, by those who gave us our charge) we have made special use of the Italian Annotations of Deodas, and of the Durch Bibles, the one lately again set forth at Geneva, the other in Holland, by Order of the States ; yet fo, that if we have borrow, ed ought of either, as they have done of those, who did precede them, in the like Observation ons, we shall defire but to take it to usury, and to make our return of what we receive, farre above the rate of ordinary interest: And in this holy businesse we have none other ambition then to give better fatisfaction to an apprehensive Reader, for the sense of the whole Bible, then (in this kind) we have mer withal, in any one Work of what Authors foever.

And therefore though we hold the Geneva Annotations, to be in the main points of Religion, Sound and Orthodox in Doctrine, and guilty of no errour, which may not be incident to Learned, Godly, and well-meaning men, ( and taking them for fuch as for those times

wherein they were made, were very worthy of praise for their profitable use, for then they were the best that were extant in English) we conceive for our selves, that we shall better discharge the trust reposed in us, and do more answerably to the intention of those who set us on work, and better fatisfie the expectation of fuch others, as fet observant Eyes upon our affiduous and fociable pursuance of the service imposed on us, if (being as repayrers of buildings to rip into an old house) we rather took it quite down, and built a new one, then patched it up. with here and there a new peece of our own putting in, which would not be decently fuitable to the other parts, nor any way answerable, either in measure or manner of Structure, to such a Modell (as confidering the advantage of the prefent age, for helps and means to exceed the precedent) some apprehensive men have already presignred to our performance.

Whereof though we fail (as what ability or industry can reach to the extent of an active fancy : ) not onely in falling fhort of their conceits, or of our own defires of what we would, and flould do, but of acceptance of what we could, and have done, we shall have recourse (for our comfort) to the fincerity of our hearts (whereto we may attest the Divine Omniscience, and with warrant from both, may be allowed to professe (with the blessed Apostle Paul) that we are not of those that corrupt the word of God, 2 Cor. 2.17. or who handle it descitfully. Chap. 4. 2. or who wrest any part of it, to the patronage of any errour, of what denomination soever. Nor have we added to it any of our own preconceived opinions, to imprint a partiality on our Expositions: Nortaken from it or smothered the least tittle of Sacred truth contained in it; Nor yet have we either flightly, or fubrilly passed over any difficult place with filence, as if it had no need of an Annotation to clear it.

But believing that to belong to all Scripture of Divine infpiration, 2 Tim. 3. which is spoken of under the title of Prophefie, viz. that none of it is of private interpretation, 2 Pet. 1, 20. We have not (notwithstanding our most intentive enquiries after the true and genuine meaning of it)rested in any single conceit or construction of our own, nor in any at all, as meerly humane. but (according to that of the Apostle, The Spirits of the Prophets are Inbjest to the Prophets, I Cor. 14.32.) have submitted our private Dictates to the censure and correction of our Colleagues in this Service daily affembled together, for the perufall of every ones part.

And what doubts we met withall, which we thought (for the present) too hard to be easily refolved, we put into a particular Catalogue, and adjourned their refolution to a Day of more deliberate Discussion, when our readings were done, which could not without inconvey scioli tantum mience be interrupted, by any long debate of difficulties coming in our way. And because we well knew it was Gods proper work, to reveal the fecrets of his own Word, not onely in our fingle and feveral Studies, and Meditations upon it, but in our joynt examinations of each particular portion, (befides our fevered Devotions) we joyntly, when we came together, implored the presence and affiliance of Gods Holy Spirit, so to guide our minds and tongues, and hands, in the profecution of this Sacred imployment, that Gods Word being our rule, we might not fwerve from it by any crooked lines of erroneous digreffion; much more, that we might beware of making any foul blots of heretical pravity, upon fo fair and glorious a pag. 109. z Nulli unquam groundwork, and of piling up upon that golden foundation, either wood, or bay, or flubble, fitter for burning, then for fuch a building. alionum vitupe-

Whereof as we are not confcious to our felves in the least point, so are we confident in the Candor of all truly Religious Readers, (of Learned Divines especially) that (apprehending the imperfection of all humane knowledge, in this life, which the Apostle (notwithstanding the abundance of his reveluious, 2 Cor. 12.) confesser for himself, as well as for others, 1 Cor. 13. together with the difficulty of some passages of the Divine Oracles, (as we touched before) that they will look upon our aberrations, where they find them, with pity and pardon. and where they shew us, that we have erred (as men) they shall see that as Christians, it was not our want of love to the truth, but want of light to discover it, that hath missed us from it.

And for the centures of fuch as would feem, I learned, by captious exception at other mens Dictates, and contrary to the charitable Caveat, and counsel of Hierom are desirous 2 to raise areputation to themselves, out of the reproach of others performances. (which for the most part are palled upon ablent parties, and so are secrets to them, which should most know them) we coram Deo dix- thall defire no better fecurity from them, then this wherein he refted, " the Sentence of the Tribunall of God, and the Chair or Stoole of Whiferers in Corners, is not the fame.

And to that Tribunal, we may (with more confidence) make our appeal, while with good prejudicio dili- conficience, as in the prefence of an omniscient Judge, we dare professe as b Saint Augustine once did, that what we have done, we have done with good fidelity, without any disposition, either to con-Aug. lib.z. de tend with any, who have written before us, or to prejudice the more elaborate pains of any that shall come after us, in this kind.

Thus much then may fuffice to have fooken concerning the first undertaking of this rask. and the manner of our joynt proceeding therein. Somewhat remaineth to be added concerning the present Second Edition, which in divers parts of it at least may well go for a new work.

That is most true, (as by daily experience and due observation in all works of humane industriv concerning matters either civil or facred appears) which was at the very entry into this narrative before intimated, that \* nothing of moment is both begun and confummated at once. Nor is it leffe \* Mibil 6. true, that after-confiderations and emergent occurrences give occasion oft of new models and mules in courses, either beside or beyond what was intended at first. That it hath so fallen out in no sboatum de fmall part of this work, will eafily and evidently appear unto any one that shall compare it in turn ellthe pieces now enlarged with the fame in the former; yea the very bulk of the Book now cites de fwoln up unto two large Volumes, will sufficiently evince.

The principal reason of such diversity for matter of dimension between the present Edition and the former, is this: These Annotations were at first intended, as those before in the Geneva Version, for Marginal Notes onely affixed to the Text. To which purpose, in the directions then delivered unto us, it was required, that they should be much of the same size with them. To this scantling being stinted, (nor indeed might they fitly, so confined, much exceed such a parern, left the border should be larger then the skirt of the coat, and the verge of the page then the main body of the book,) our endeavour was to be as brief and concife, as we well might. and we were therefore constrained, being so streitned, to let passe many things not unworthy otherwise of due observation and large discussion, that our Notes having onely a narrow byplace affigned them on the outfide of the leaf, might not in undue and undecent manner so enlarge their quarter, as to encroach beyond just proportion upon the spaces that were to be referved for the context. Hence came it to passe, when the work came abroad, that divers notes feemed not fo full, nor fo cleer, to meaner capacities especially, while \* endeavour of brewley bred. as is usual, some obscurity; and much was missed by many, being indeed purposely omitted, esteboros: which well might, and would have been the greatest part of it inserted, had the lists and limits Objenue. prescribed us, afforded room with any fitnesse to receive it.

Howbeit, when afterwards upon some second thoughts and further consideration, it seemed good unto those, who had put us upon this work, to alter their course at first propounded, and to publish the Annotations apart by themselves; the grounds of that former limitation and confinement both of Us and Them being now removed; some of those, who having gone far beyond the bounds formerly fixed, had by mutuall advice and agreement resolved to abbridge, were then requested to lay that labour aside, and to let their Parts go entire as they were: as also some other of them, who had held close to the former directions, would not have been unwilling accordingly to have enlarged, had they been timely made acquainted with the new course then pitched upon, and sufficient respite afforded for a fresh review and further supply of what might feem fit to add unto the former.

But, what could not then in this kind be effected, the Work being already entred upon at the Presse, and begun there with the parts of some that had kept within the fore-mentioned compasse, that, it is hoped any diligent and intelligent Reader, will soon perceive to be now, in the present Edition, by a very considerable and advantagious addition, performed: when he shall therein find, the terms and forms in the Originals from their first roots and rifes unfolded, \* so \* Significant pregnant for notion many of them, as could not in few words eafily, or without fome injury, and united be comprised and exprest; the variety of versions and interpretations, in most Writers of note, versions as well Fewish as Christian, represented, and, where just occasion, put to triall; such Senses as prietaternas as well Fewish as Christian, feemed genuine, culled out from the rest and confirmed ; where more then one equally probable, efferant, & referred to the further disquisition and decision of the Learned; the grounds discovered of sun- dum, quare difficulty more then ordinary, diligently discussed, with endeavour to remove rubs and doubts surgo ambite to the continuous and doubts surgo ambite surgo ambite to the continuous and doubts surgo ambite to the continuous and doubts surgo ambite surgo ambite to the continuous and doubts surgo ambite to the continuous and the continuous areas and the continuous and the continuous and the continuous areas are continuous areas a aujusti more them, passes of Story in the Writings of the Prophets collected with the relations with frameword about them, passes of Story in the Writings of the Prophets collected with the relations of facient Heathen Writers, the Text in divers places, either rendred or expounded, beside the augustum, common, general fometime, current of Interpreters, upon fuch grounds, and for fuch reations, Hieron. ed as is supposed may give good satisfaction to the Learned and Judicious; and lastly, such matter Paramach, of observation, by few, it any at all, formerly taken notice of, here and there occasionally inserted, as may very much conduce to the right understanding of Scripture: a great part whereof fuccinct Marginals would not admit. So that the Work as now it is, (the premises well weighed) may not unduly be deemed An entire Commentary upon the whole Body of the Bible; and that fuch (it may with good warrant be averred) as hath not at any time appeared in our Language before.

Wherein if our labours (which in regard of years and weaknesse have been very painfull to some of us, shall prove useful and beneficial to Gods people among us, into whose hands they shall come, (as through his bleffing we presume they may, if they shall not be wanting to themselves,) our onely desire, and earnest request unto such is, first that the glory of all, and praise for all, be entirely returned unto our good God and gracious Father in Christ, who out of his meer mercy and goodnesse, hath enabled us his weak and unworthy servants to go thorough with this great Work; and next, that we may obtain from them (so many of us as shall be yet continuing in these our crumbling cotages, when this work shall come abroad) their fre-

An advertisment upon a certain clause in an Epistle prefixed before the Annotations of Mr. Diodati on the Bible : which clause is this,

The most reall confirmation of the usefulnesse of the Annotations of Mr. John Diodati, upon the Hole Bible, is the high esteem those Reverend Divines have had thereof, viz. Dr. Gouge, Mr. Gataker, Mr. Downame, Mr. Ley, Mr. Reading, Mr. Taylor, Mr. Pemerton, and Dr. Featly, who each of them taking a several part of the Bible to make Annotations thereon, and Printed them together, 1645, they all so highly approved of Diodati's Annotations, that any one, who shall please to compare those severall Notes of theirs, with the first impression of this in English, shall find many thousands of this our Author inserted : but especially in Ezekiel, Daniel, and all the minor Prophets, &c.

Christian Reader.

T hath been an ancient practife, (a practife that favoureth ranck of pride, and envy,) to raife up praife, and glory to fome, by falle afperfions, and unjust impurations on others.

To omit all other instances, A certain Epistler, who subscribes hiraself R.G. hath taken upon him to commend a work far above his commendation, The Pious Annotations of a Judicious

Divine, Mr. Folm Diodati upon all the Sacred Scripture.

This he feeks to do by a false and flanderous calumny on fundry Divines, eight of whom he nameth, and layeth to the charge of every one of them, that they have inferted many thousands of Diodati's Annotations into their own. For Seven of the Eight, whom he names, let his own rule be observed, namely, their Notes compared with Diedati's, and the many thousands will not be found, one. It may be that in some places they may agree with Tremelliss, and Funiss, with Piscator, and other Learned, and Orthodox Annotators on the Old and New Testament, whom Diedati hath much traced, and thereupon all agree in the same truth: but from thence to infer, that the Seven English Annotators have inserted Diedati's Notes into theirs, is so false

an inference, as any Sephifter would fay, non fequitur.

The Annotations of the forefaid Divines were finished, and given up to the Stationers the year before the first Edition of Diedati's Annotations, translated into English, were published: fo

as they could have no help from that English Translation.

As for the Italian, in which language Diodati's Annotations were first composed, many of the forefaid Divines understood not that tongue: nor had any translation thereof for their help.

But further to demonstrate that it was not Diedat's staff that they lean'd upon, in many Chapters which Diodati hath either wholly paffed over without any Note at all, or onely here, and there made a bie, and short Note, our Divines have made many learned and usefull Annotations: and also have fully cleared fundry difficulties, which Diodati hath passed over in filence, or profeffed, that, \* This difficulty is not to be refolved: and it is likely that there is some alteration hapned in thefe accompts. Doth not this Supposal of alteration in the Sacred Accompts impeach 2 Chron. the authentique authority of the Hebrew Text ?

But to grant this Calutaniator as much as in truth can be granted, that one of the Annotators to whose share, Ezekiel, Daniel, and the smaller Prophets fell, hath manifested himself to be Plagiarius; shall his crime be imputed to all the rest, and that by him who knew, and hath acknowledged, that each of them, whom he named, had a several part of the Bible to make Annotations upon.

We read in Scripture of Societies of godly men, among whom one did that which the reft could no way approve. Is it just and equal that his faults should be charged upon all, and every one of that Society?

Who were more grieved at this Plagium, then his Collegues, when they came to know it?

This is one evidence that the rest of the Annotators were not so well acquainted with the Notes of Diodatias to discern what was translated out of his. Had they at the reading of their Notes together known any such thing, they would have utterly rejected them. Now in this fecond Edition, those parts of Scripture are committed to the trust of one who a more able,

faithful, and careful to produce the fruits of his own studies and pains.

Learn, Obtrectator, learn piety, verity, equity, humility, charity, and other like Christian graces: against all which thou half highly offended in this thy unjust calumny, and do fo no more,

## ANNOTATIONS

## ON THE PENTATEUCH ORFIVE BOOKS OF MOSES, AND PARTICULARLY on the first of them called GENESIS.

THE ARGUMENT.

HE five Books of Moles are sometimes contained under one Title, and so from the most observable matter delivered in them, and dispersed through them, they are called Thorah, that is, the Law and from their number. and Juntime, the Title given them by the Greeks is the Pentaceuch, or fivefold Volume; for all five anciently made but one Book, as did the twelve smaller Prophets; and thence it is that the Books of Exodus, Leviticus, and Numbets, begin with words of Coherence, which carry on the subsequent matter as by way of orderly contexture, and connexion with what was faid before,

Of these, the first Book in particular is called by the Hebrews Betclith from the initiall words of it; after which manner they gave names to divers other Books : the Greeks calls it Genesis, because it delivereth the Story of the manner mey gave names to awers ower Down: the December of December of December of December of December of State and Eventeer top, when the first in their degenerated condition, the multiplying forms in their multiplyed posterity, whereupon followed the universall stood that overwhelmed all living creatures of the Aire and Earth, except a very few of each fort, which were reserved as a Stock for a new Plantation in the next Age; with other memorable matters of the Patriarchs, especially of Noah, Abraham, Isaac, Jacob. and Joseph, with whose death Genesis endeth; which was in the year of the world 2368, or 2369. as they bring in the accompt, who have made it upon diligent perufal, and comparing of particulars.

created] To create in property of speech (as is noted before in the Annot, on ver. 1.) is to make a thing out of meer nothing, as the word Bara, is used, ver, I. The same word is used of the making of Whales though they had their being from preeedent matter, because that matter was originally nothing; and fuch as it was, fo unapt for fuch a work, that without an infinite creating power it could never have been formed into a

living creature] The creatures now made in the general are living creatures, and are diffinguished into two kinds, going and evening things; the going again are of two forts, cattel, and the bealts of the earth; the word for cattel in the Original is Behemah, which in the general acceptation may fignifie any living creature, especially grear, wilde or tame; and in particular, some take it for the generate force it beath, and the reforce render in the plural number by Prema; and fome for the leffer fort, and translate it by Prema; and fome for the leffer fort, and translate it by Prema; and fome for the clothing, drawing, or burden the control of the co den bearing, and therefore in Latine have their name from be'p, for the word is Fumentum, as it were Juvamentum: and Hhajiah, which is rendred beaft, when it is put in the fame fen-

Var. Hift, lib. 5, cap. 28, See alio Plutarch in the life of Sylla.

V. 26. Let us make] This is spoken after the manner of men, as by way of deliberation and advice for a work of great weight and moment: but befides this word of plurality [16] may intimate the Trinitie, diffinelly noted in the first Epistle of John, Chap. 5.7. In this manner (that is, plurally) God speaketh of himself four times in Scripture, as besides this place, of this Book, Chap. 3.22. & Chap. 11.7. & 11a.6.8. and in divers of them not by by way of deliberation or advice, (as here) but fo, as to mind us of the mystery of the three Persons in one Godhead; and in this place God the Father feemeth to fpeak as communicating by way of confultation with God the Son, and God the Holy Ghoft, concerning the creation of man. See Annot, the second on ver.1. of this Chapter.

make man ] Man is made on the last of Gods work-dayes, and the last work of that day; and as the last, so the best; that is exprefly mentioned (as the angels are not): as part of the first dayes work as moft imperfect, not that God increased in skill by continuance in working, nor that he could not have wrought up his handy-work to perfection the first moment of Creation; but he meant by his example to teach us both patience in the but he meant by his example to reach us both patience in the expectation of proficiency, and diligence and perfeverance to bring it on by degrees, from good to better, and beft of all; and withal he shewed his fatherly beneficence and providence to his eldeft fon Adam, Luke 3. laft, in furnishing the world and making all things ready for his entertainment before he put him

man] The word Adam, (put for man in the Hebrew, flandman J in word wadm, (put for man in the Hebrew, it and-ing for the whole species of mankind, as Chap, 9.6 / fignificht (as Josephus rendrethir) Ruddy; and he giveth this Reason of that name, because (faith he) he was made of earth tempered with red or yellow; for the cartch which is elementary, is of that colour, Joseph, Antiq, lib.1. cap.2. This name is given by God to man, Gen. 5.2. rather then to other creatures, though they were of earth also, because he was in danger of pride by his preheminence, and because he was capable (as they were not) of an humble and holy confideration of his mean original, being made of that element on which every creature may fet his foot, and lay his dung.

The Image of God in man confident not in any bodily thape, (as fome hereticks have thought, and fome fimple people too easily believe; which errour is nourished by Popith pictures of God fee forth in the resemblance of man, contrary to Deut. 4.15,16.) but in the nature of the foul, as it is a spiritual and immortall substance, and endued with three faculties, understanding, will, and memory, as the Deity hath three Persons, Father, Son, and Holy Ghost; and in the now supernatural indowments of di-Hosy Ghort; and in the now inpernatural modwhents of di-vine knowledge, righteoufnesse, and true holinesse, Ecclef. 7. 29. likenesses I Image and likenesses are not two diverse things, but the same more fully and clearly expressed in two words, then in one; and that after the Hebrew manner in two fubftancives, whereof the one is of an Adjective construction. So . Let us make man after our own Image, after our likeneffe; is in effect thus much; Let us make man after our Image, very like unto us; the like Hebraifme may be observed, in Ier.29.11.

let them] The word man, or, the Hebrew, Adam, taken not personally or individually for one single person, but collectively in this verse, comprehenderh both male and female of mankind and fo it may well be faid, not let him, but let them have domi-nion: which if it be confidered negatively, as not extended to the ruling of the Ayr, Mercors, or Stars above him, (for he hath no power at all over them) it may admonish him of reverence and obedience to his Maker, to whose power and government alone they are referved, and fo are not subject unto man, but are as fellow-fubjects unto God.

dominion] The Dominion which man had over all the crea-

ent to him with readinesse, and reverence, ready to come or go at his Command; but this obedience to man was forfeited by his disobedience to God; and mans rebellion against his Maker is punished with the creatures rebellion against him, even to his ruine, Ezck.14.21. Though here be no mention of Dominion among mankind over one another, but only over the other creatures, yet it is most like that Parents should have authority over their children, which as it would have been exercifed without any rigour, fo it would have been obeyed withcued witnout any rigour, to it would have been obeyed with-our repining or grudging. Of the Dominion of man over the creatures, fee further, Annot. on Gen. 9.2. V. 21. male and [email ] Mat. 19.4. Mark 10.6. Not at once,

V. 28. be fruitfull | Thefe words were rather a benediction, as verf.22, then an injunction for procreation; yet that alfo, fo far as man was bound to do his part for multiplication of mankind: how far this agreeth to the condition of man fince his fall into fin, may be gathered by the words of our Saviour, Mar. 19.10, 11. and of the Apostle, 1 Cor. 8.9. whereby all are allowed, and those necessarily required to marry, (who have not the gift to continue in chastity without that remedy) whether they be Civil or Ecclesiastical persons, fince the difference of callings makes no difference of natural inclinations; and that marriage is honourable in all, Heb. 13.4. without diffinction or

[ubdue it] Not as by conquest; as if it were rebellious from its creation; but by fubduing is meant a keeping of it in a flate of subjection and service to man, as if he had gotten the mastery of it by force, Jer.34.11.

V. 30. and to every heaft of the earth] Pfal. 104.14. Though now divers forts both of beafts and birds do live on flesh, fo as it feems natural to them, yet at the first it is probable there was no fuch antipathy betwixt the creatures, nor fuch an appewas no tuch antipathy betwist the creatures, nor fuch an appe-tite to devour one another, as fince the fall, which caused nor only a falling out betwist God and man, but betwist man and man, man and the creatures, one creature and another, and the fame creatures which now live upon flesh, are observed in want Imme creatures which now live upon neins, are observed in washed to fit to feed on figs and cheffuts, as Aug. fleworth, de Civ. V. 31. very good] Every particular creature was good taken by it felf; good as from God; for me from his mouth proceedeth not evil and good, Lam. 3.38. fo from his hand proceedeth no not evil and good, Lam.; 338. In all this History of the Creation, there is no mention of In all tins stilloy or the Creation, inter a not intention of the creation of Angels whence some have (ippposed them to be eternal; but against that may be alleadged; Col. 1.16, 17, Some, that chugh they had a beginning, yet iwas long before the Creation recorded in this Chapter; but in the same place of the Aposlle, all things in beaven and in cartil, sofillot and unifolds, are wrapped up in one original, and chardislinguished from the eternal duration of the Creator, who was before all

In this diversity of opinions for the time of the creation, we conceive that in the fix dayes foace, and before the last day, there is no errour of danger which way soever we take it. If it be asked why their creation was not more punctually it. If it be asked why their creation was not more punctually expressed, the answer may be, not as commonly it is, that the Jewes were too dull to be informed of spiritual beings, for the mystery of the Trinity is divers times infinuated in this Book of myslery of the Trinity is divers times infinutated in this Book of Gembs, and Cherubins are mentioned, Chap, 3.44. and afterwards we read of Angels, Gen. 19.13, 5. & Chap. 28. 12. & 32.1. but because this first History was purposely and principally for information concerning the visible world, the invisible whereof we know but in part, being referved for the knowledge of a better life, I Cor. 13.9.

Verf. 1. Hus the heaven This verfe might more fitly have been made the close of the precedent Chapter, then the beginning of the present; for it summarily containeth what is particularly set down in the first Chapter; as also that (all Gods specifical works sinished on the fixth day ) he rested on the feventh. The like inconvenient division of Chapters may be observed between til Cor. 12. & Chap. 13. where the last vers, of the 12. V. 2. Of every clean bealt] The distinction of clean and unclean creatures, before the flood, was principally observed in respect of Sacrifices to God, yet in respect of sufferance of man, there was difference also; for some of them were of wholesome nourishment, some not; but of those that were wholesome in themselves, some kinds were after the flood forbidden to the ews, Lev. 11. which upon the union of converts of the Jewes and Gentiles into one Church, were allowed as a part of Chris flian liberty, Act. 10.12,13. 1 Tim.4.4. So he knoweth that even the best are fispers in iniquity, and concidered in 50, 161,154. And hence he will take exception to the mercy comanisms, for if the should fend general Judgements when forces where is a concrediture of the pitting of the should described the state of the should be solved in whenfoever there is a generality of fin , he should do nothing but marr what he hath made; and yet as the wicked shall deferve, and his wildome think meet, he will have wayes enough to be meet with them : Refides, now his Justice being glorified in the destruction of the old world, his nercy in regard of mans mature and unavoydable corruption was feafonably promifed. especially being now reconciled to the new world by the facri fice of Noah, which moves him to bring in that as a motive of mercy, which in Justice he might aggravate to feverity. Verf. 1. BE faitful and multiply] (As Chap. 1, 28. 8. 8, 27. 8. Noah had any children after the flood, the blefling of fruitfulnesse in his issue was a bleffing to him, Pial, 18.6. for grandchildren are children in whom the grand-father lives, and whom he loves as well as those that are his by immediate descent. he lows as well as those that are ms by immediate decising, Gen. 31.28. & Chap. 48.15, 16.
reptails the earth] These words as the former, are in forme a command, in effect a bleffing, wherein Gods word and his work and the state of the sta

go together, as Gen-1.3,7,11. and though it be spoken exprefly of mankind alone, yet herein is implyed also Goda bleffing upon other creatures; for not only mankind, but beafts and birds were to increase, and by their fruitfulnesse to replenish the earth and the ayr. It is much doubted how all kind of creatures could be brought from the place where Noah landed his carriage in the Ark, all over the earth to overspread it, (as verf. 19.) especially into the remote parts, as America? Answ.1. It is not necessary that all kind of creatures should breed in all parts of the earth, as in the Hands, Cuba, Margarita & Dominica, parts of the earth, as in the Hands, c.nca, ozargarita & Dominion, there he no Lyons, Bears, aor Tygers, as many Countreys have no breed of Elephants or Camels. Secondly, they might go very far by land, and from one Land to another by fome narrow paffage of water which they might fwim over; or they might be carried in Ships from one Countrey to another, and by that time they were multiplyed fo, as to be too many for that Continent on which they were first landed from Noah's Ark, the art of making Ships, and of Navigation, might be invented; for though we find no mention of Ships untill the benediction of dying Jacob, Gen. 49.13. which was fix hundred yeares after this general flood; yer there might be use of them long before: for it is not necessary nor usual in the Scripture, that all things be mentioned that are done, much less that their originall should be precisely noted; for in fix short Chapters (the first six of the Book of Genesis) we have the compendium of the story of the world from the Creation to the Floud, containing the terme of one thouland fix hundred fifty fix yeares, wherein in must needs be, that many more matters are omitted, then are mentioned.

wentoured. V. z. the fear of you! (Gen. 35.5.) The dominion of man fince fin is not like that of Adam over the creatures at the first, (for their obedience to him was in proportion such as his to his God, free and unforced, and rather out of love then out of fear ) but by prevailing of force and art, as now it is, yet neither can he subdue the nature of the wilder fort, for as it is in the thirty ninth of Job, Will the Unicorn be willing to ferve thee, or abide by thy crib? ver.9. Constthoubind the Unicorn with his band in the furrow? or will be harrow the valleyes for thee? vers. 10. which words though they be an interrogation in form, are in effect a vehement negation: But Noah and his fons (with whom the un-reasonable creatures were In-mates in the Ark, & by whom they were governed and succoured as a part of their family) might have more power over them, and more obedience from them then his pofferity in after-times; for it is like they were more at command whilest they were afraid of the flood, and confined in the Ark then afterwards; and yet man (especially the elect; as in Christ) hath a general dominion over the unreasonable creatures, compare Pfal. 8.6. with 1 Cor. 15, 27. even to the taming or over-awing of the wildest of what fore foever, James 3.7. as of Lyons, Leopards, Tygers, and Elephants, as we may see in Plin. And here was especial cause to mention the allowance of eating the living creatures, both because herbs and fruits were spoyled with the floud, and for that God would by this grant the more oblige them to forbearance of bloud, ver. 4. as he did the more binde Adam to abstinence from the fruit of one tree by his liberal beneficence and allowance to eat freely of all other fruits that grew in the Garden of Eden: and this not by command, for though it be given in a term of command, Gen. 2.16. is in effect hough it be given in a zero of command, Gen. 3.1.6. in effect but a concellion or permittion, 3 text. 11.3. V. 4. But flesh with the life | That is, living flesh with the bloud in the veines ; or, the bloud let out of the veins, wherewith the life and foul of the creature is powred out; for the

the life . because the spirits which are the liveliest parts of the creature, are produced of the putelt part of the bloud, and with it diffued throughout the whole body, by the operation and activity whereof the members are lively, and active, and without which there is no bodily life in man or beaft, though the bloud continue in the body, as in creatures ftrangled. By this in Gods
intention is, first, morally forbidden all cruelty, not onely to Add 1.3.2

That which we compare the contractive contractivities all the movements of the contractivities all that move the creepeth move the but not contractivities all that move the creepeth which the contractivities all that move the creepeth which the contractivities all that move the creepeth which can be contracted by the contractivities and the contractivities are contractive to the contractivities and the contractivities are contractive to the contractivities and the contractivities are contractive to the cont fuch a babarous manner are called Authropophagi, that is men-eaters, Plin. Nat. Hift. lib. 6. cap. 30. Thirdly, afterwards, the cating of all manner of bloud was exprefly forbidden, Lev. 7.2. & Chap.17.10. and that not onely because the bloud is the life of the flesh; as here, and Lev. 17.14. or the life of the fleth is in the bloud, as the reason is expressed, Lev. 17.11. but there is a reason mysticall against the eating of bloud in the there is a reason mysticall against the eating of bloud in the fame verse, and that is, because in facrifices the bloud was to be let out and fyrinkled, to fignific that the life of man by finne is forseized to God, and to be offered to him, as the Authour from whom at first it was derived, and to whom at last it is to be presented, and for that mans life was to be redeemed by the be preferred, and for that mans lite was to be reactined by the bloud of Christ: To these two some add a third, viz. a Phy-fical cause of forbearance of bloud, which may serve for all times, and it is because the bloud of beasts is somewhat grosse, and yeeldeth not very wholesome nourishment to the body of were not to be strangled, but to be killed, that the bloud might be let out and parted from the fieth. And from this prohibition of bloud in this Chapter, before the ceremonial law was ordained, and the decree of the Apostles for forbearance of things ftrangled and of bloud, Act. 15. 20. after the obligation of it was expired, fome infer a perpetuity of prohibition of all fuch meats, especially fince in the Apostles decree pollution of Idols, fover. 20. or, meats offered to Idols, ver. 29. and fornication are forbidden, and all in one tenour, as necessary things to be eat any thing made of bloud, though mingled with other ma-terials, and broyled and dreffed as other meats are: and therefore the Christian Greeks find fault with the Latines for using their Christian Liberty herein, as Theod. Balfamon on the 63. Can, of those supposititious Canons which are intituled to the

But first for answer to the Position, it may be alledged, that all meats which are wholesome (though some be more wholefome and autritive then others, and to fome ftomachs and confitutions groffer meats may be more fuitable then fine) are by Evangelical liberty lawful to be eaten ; for that fee the fifteenth of Marth, ver. 11. Act. 10. from ver. 10. to the 16. 1 Cor. 8.1.8. & Chap. 10.25. Tit. 1.15.

Secondly, this prohibition of the Apostles touching the eating of meats strangled, and bloud, was occasional, and in case of fcandal, that the converted Gentiles should not be offended with the converted Jews for their forbearance of fuch meats, nor offend them by their ufe.

Thirdly, for the forbidding of bloud, besides the present reafon concerning the state of the Church , and the antiquity of the abstinency prescribed soon after the floud, there might be a reason of it from the future, viz. a slander of the Christians for bloudy and unhumane banquets of humane fieth, fuch as are reported of the Tyrant Phalaris, Arift, Eth. lib. 7 cap. 6. and are fometimes threatned and inflicted by God as curfe; whereoffee Deut. 28.56,57. 2 King. 6.28,29. Lam. 2.20. & Chap. 4, 10, which the Holy Ghoft forefaw would be charged upon them, and meant to meet with it by this decree, and the observation of it for a time, out of which the Primitive Christians made their Apology, convincing their accusers of falshood, and acquitting themselves from all just suspition of such a crime by their forbearance of all use of bloud in what kind soever, as we find their defence fer down in the writings of Minutius Fælix Eufeb, Ec-

clef. Hift-lib. y, cap. r. Tert. Apologet. cap. 9.

Fourthly, for the forting of this prohibition of bloud and things ftrangled with forbearance of meats facrificed to Idols and fornication, it followeth not that they should be alike lawful or unlawful ; for the same punishment, much more the same prohibition,may be fet upon things of a very different nature; as death is the penalty of murder, Gen. 9, 6, and of having leavened bread, Exod. 12.15,19. yet the one is forbidden by a moral, the other by a ceremonial precept; yet for the finne of fornication, divers of the Gentiles held it but for a thing indif-

Fifthly, for calling of them need ary things, they were fo, and alwaves will be, so far as the obligation is from a moral precept, as the caution against Idolatry and Fornication; and for those foul of a beaft, or fifth, or fowl, hath no existence without the things which are in their own nature indifferent, as the abiliChap.ix. nence from things fittingled, and from bloud, the forbearance the use of the Magistrates sword as lawful, but require it as a of them was necessary for a time, in case of seandal to any be-

The former prohibition is a preparative to this, the moderation towards beafts that were to be killed by abflinence from their bloud prescribed by God, Lev. 17. 14. was to be retraint of critery towards man, whole the was map percious, fine he was made after the lange of God. See ver. 6. and this an univerfal Law, inforced with an impartial penalty, death for death, bloud for bloud, who foever he be that fheddeth it without just cause and lawful warrant.

V. 6. by man Murder or killing is to be punished with death, like for like, Excd. 21.12. Lev. 24.17. Mat. 26.57. Which is to be understood of wisting and wilful murder, Numb.35.31. for if one had killed another at unawares, there was a City of refuge for the flaver to fave him from the hand of the purfuer, ver. 11. otherwise, be that sheddeth mans bloud, by man fa all his bloud be fbed. Some read the words, whosever sheddeth the bloud of man justa. Some read the words, proof sever preducts the book of manimum; and the Original Text dam haad om haadam, will allow it, which may be rendred, the bloud of manim man; and so the sense may be, Whoso letteth that bloud out of man which is and fhould remain in man, his bloud shall be shed. The chief cause of the doubt is, the reprieve of the first murderer by God himfelf, though guilty of the greatest cruelty against man, and of the stoutest contumacy against God of any professing services him (ashe did by facrifice ) in the Scriproteining retricted nam (asset on any pacinises). Land of Shara! So is that whole circuit of land called which
encompasseth Babylon; so that it comprehends Mesopetania,
a part of Arabia, Persa, and Syria; but some more strictly
take it for that land which is situate betwizt two rivers, Emphrater and Tyeris, and therefore called in Greek Melanatamia. See Annot, on Gen. 11.2.

V. 11. Out of that land went forth Ashur] Or, out of the land le, that is, Nimed west forth into Affin, or Affyria, a countrey lying neer to Shinar, having the name of Affin, whole ambition would not fuffer him to abide at home, though never fo well or commodioully feated, but made him to paffe from place to place to enlarge his dominions. Some take the name of Afbur for a fon of Shem, fo named, ver.22. but here fpoken of by occasion of Nimrod; for Nimrod having seized on Chaldea which belonged unco Albar, he, as neither by patience able to bear, nor by power to over-bear that ultrping tyrant, went out of that land, the land of shinar, and planted himself beyond the river Tygria, where he founded the Monarchy of Albary ria, and built the city of Ninevels. Some will have this Afhur not to be he who was fon of Shem, but another Affair of the race of Ham; and there might be one of that name, and of Hams progeny; but which foever it was, the feems to have been fo eminent as to give denomination both to the Affyrian Monarchy and countrey. Some conceive this Afhur to be Ninus the fon of Belus, called Afhur by anticipation, because afterward he was Monarch of Affyria. This confituation of the words having the last place, and the least ground, either of the former

may have approbation before it.

and the city Rebooth? Or, Rebbooth; or, the firets of the
city, fo the word fignificth in an appellative lense; it cometh ary, 10 the word against in an appellance lenie; it comets of Rabbab, which fignifies to indage, and so some take it as an explication of Ninevel, by the spations need to large nesse of the streets. Some take it for the name of another City diffinct from Nineyeh, whereof mention is made, Gen. 36.37. 1 Chron. 1.48. which yet might have its name from the length or breadth of the fireers of it as well as Nineveh.

V. 12, the fame is a great city) That is (not Calab laft fpoken of, but) Nineveh, for there is an byfterofis in the words, which in fense must be made up thus ; and he built Rezen between Calah and Ninerch, the fame, that is, Ninerch is a great City, fo ealled by God himfelf, Jenah 1-2-. & Chap.3-2. & Chap.4, ver. Laft. But how great it was at this time, it is hard to know; In the Prophet Jonah his dayes it was a city of three dayes jour-ney, Jonah 3.3. which would take up three dayes to go through the fireets, or to compafe the walls of it about; and the num-ber of Inhabitants was evidence of the greatnesse of it, for it had in it an hundred and twenty thousand infants which knew not the right hand from the left, Jonah 4. last. And is is probable that the dimensions of it varied with the ages through which it pasfed ; for great cities, if wars or fire do not leffen them, com-

monly grow greater and greater.

V. 13. Ludim] (Lud, 16.66.19,&c.) the off-fpring of luch
as are here named, are for the most part unknown; yet some fay the Lybians came of Ludim ; but others refer them to Lehabins; some more suitably to the sound of the word say, Ludim was the father of the Lydians; if so, there must be other Lydians then those which inhabited Afia the lesse, for they are noted under another original.

V. 14. Pathrulim] His posterity inhabited Egypt, especially that part where the City Pathros, Isa, t.t. 1. J was built.

Rock of Ca flabim, or coming from dwelling among that people, (whereof he was progenitor) as a part of a promifeuous multitirde, (fuchas went with the Ifraclites out of Egypt, Exod. 12. 38.) and changing their dwelling; for though the Philistines were not the off-fpring of Canass, they made themselves room, and an habitation in the land of the Canasnites, by driying out the ancient inhabitants.

V. 20. Thefe are the fons of Ham ] There are more in the number of descendents from him, then the iffue either of Shem or of Japher; and above twice so many as are reckoned of of of papers; and above twice to many as are receoned plaphets linage, notwinklanding the blefing and promife of his inlarement; Chap, 9, 27, and that he had feven fonnet to begin his progeny withal, verf.a. and Ham had but four, verf.a. Fleshly fruitfulness is none of the best blefings of the Pather of spirits, nor any good evidence of prelation, either in mankind, or other creatures : for Sarab was a wife many years, and yet barren, when Hagar her handmaid, and her husbands concubine conceived quickly after her admiffion to her miftreffes bed: and among the increase of creatures, the most contemptible, as Mice, are most numerous, one bringing forth one hundred and twenty upon one generation, Plin. Nat. Hist. life. 10, cap.65, while the Elephant, a more noble creature, both in respect of his stature and strength, as also in respect of his faculties, and docility, goeth two years at leaft, and as some conceive, ten years with young, and hath but one birth during life, though he live (as some write of him) two or three hundred years, Piin.Nat.H.fhlib.8.cap.10.

V. 21. usto Shem] Why Shem, though the best of the fonnes of Noah is with his iffue brought in last, see Annotations on

the father of all the children of Eber] He was great grand fa-ther to Eber, yet he is called a father of Ebers children, to note the reference of posterity to progenitors, though at farre di-stance, which may be matter of hope and fear to their issue for many descents, thereafter as their ancestors have been, either in favour with God, as Ifai. 45.4, or under the offence and in-

in favour with Goo, as 1121, 45, 4, or under the outertee and my dignation of God, Jet. 15, 4, of Ebr. He was the father of all the fonnes of Aram and his iffue, as well as of Arphaxad and his pofferity, whose grandchild was Eber. Why is he not called the Father of some other of that line, as well as of Eber i Answ. Eber is mentioned for honour and favour to Shen and Eber both ; as Canaan the fon of Ham, is named by way of displeasure to, and disgrace of his to Ham, a stanted to what of impleating to, and aligrace of his Father and himself in the curie, Chap, 2.5. For in the line of Ebtr continued the language spoken by Adam, the true Religion and worship of God, though Hoften on or of his two sonnes named, Chap, to verf. 1.5. (Peleg was shoother) made detection for the continued of the continued o from it; and God in his good providence, continued his life longer then any of those that were born after the flood. See Chap. 11. verl. 16,17. From him therefore have the people of God been called Ebrewer. The word Ebre fignificth beyond, whence some have thought Shem to be called the father of them, who dwelled beyond the River Tygris; but it is rather to be taken here for a proper name, which might yet be given unto Eber by his Father, upon some occasion of removal of his fa-mily, or passage to another place: some conceive they are called Ebrewes or rather Ebrai, as it were Abrahai, because they were the pollerity of Abraham; but the former notation of the name is more natural, and by the more judicious Writers more

generally received.

the brother of Japheth the elder] Hebr. the great. For the He]
brew language hath no comparative degree, but useth the prepolition Min, or the article Ha for emphatical expression, as in the word Haggadhot, Gadhol fignifying great not greater; and the Hebrews wanting fuch difference of termination in cafes, as the Greeks and Latines have; the word here used, and properly Englished great, and commonly greater, may be rendred, either in the Genitive cafe, and fo it maketh Japheth the elder or in the Ablative case, and so maketh Shem the elder; and from this ambiguity in the Original, arifeth diversity of opinions concerning the feniority of thefe three fonnes; for fome from hence rendring the adjective in the Ablative case, and so in conftruction agreeing with Shem, and from the ordinary rehearfal of them in the Scripture, (wherein Shem is placed the first in order) take him to be the eldest; others, because the Original Text will also admit of the adjective to be taken in the Genitive case, and so joyned with Japher, make himshe elder ? der fereral titles fometimes more, and fometimes fewer; fome- and this exposition may have the prerogative of an elder

brother to be preferred before the other, which may be proved Apollic flast lake place with us 1 Now I befeech you brethren, abus; 1. Cham was not the cracit, for ne is called, wears yearser fon, Chap.9.24. according to the Hebrew, His little fon.
2. Shem was not the eldeft, for 1 Noah begar (that is, began to beget) his three fons, when he was five hundred years of age, Chap. 5.32. 2. In the fix hundreth year of Noah, the fecond moneth of that year, and the feventeenth day of that moneth, moneth of that year, and the tevelttenin day of that moneth, came the flood, Chap. 7. II. 3. Two years after the flood Shem (when he begat Arphaxad) was a hundred years old, Chap. II. 10. therefore Shem was begotten in the five hundred years. Chap.11.10. therefore Shem was begotten in the use hundred and fecond year of Noah. A. And if Noah began his fruitfulneffe in the year five hundred, and begat one of his three fons that year (as hath been noted out of Gen. Chap. 5. 32.) ir must needs be Japher, and so he must be elder then either Shem, or Cham; yet Shem might be usually named before them both, because he had the honour to be Patriarch of the national Church of the Hebrews, fo much honoured and favoured by God himself, according to the precedent Annot. so that his precedency before Japhet, is by order of dignity, Chap. 9. 26,17. not of nature; and so is Abraham set before Nahor 9, 20, 27, 100 of nature; and 10 18 Adranam ter before Nanor and Haran, Gen. 11.26, and Jacob before Efau, Gen. 28, 5, and Ephraim before Manassch, Gen. 48.20, though neither Abraham, nor Jacob, nor Ephraim were elder then their brethren before whom they are named. V. 25. unto Eber ] 1 Chr. 1.19. the name of one was Peleg] Which imports division; for Pa-lag in Hebrew fignifictive divide, and in his dayes was the earth divided; and the division (2s Josephus Antiq. lib. 1. cap. 4. sheweth, and many Authours hold with him) was two fold, inewesh, and many Authours note with min) was two fold, the one by Noah, as it were by will and reliament affiging to his three fons the three parts of the world, Africa, Afra, and Europe; and this is thought to be about the birth of Peleg: different and the only the best better the birth of Peleg in the confusion of Babel there was a real division. fion, or an actuall occupation or possession of the several parts of the earth, whereto they were presently compelled by a kind of imperious necessity, since with such diversity of tongues (which some take upon them to reduce to a certain number, as they do the Nations of the specifion) it was not convenient for them to live together: and this division also fell out in Pelegs time, and to him was that name given as a memento of that division, wherein concurred the high provoking pride of man, and the admirable justice and prudence of God; which man, and the admirable purities and printeness of God, when may mind us of nominal, as here, and sometimes real memorials of Gods memorable acts, as Numb. 38.40. whether of favour or of anger; for we are naturally prone to oblivion of fuch works as should make a very deep and durable impression in our minds; whereof see Plal. 106. 13. I But for the name Peleg in particular, and for the reason of that name forementioned; how fiely may it be a pattern for our unhappy times! how oreat cause have we to call the children that are born in these dismall dayes by the name of Peleg? for how are we divided, not in tongues alone, as at Babil, but in heads, and hearts, and hands! in conques atone, as at usort, one in views, and nevers and hands! what divifions are there, not onely of Reuben, Judg. 5. 15, but of all the Tribes of our Ifrael and were we but divided, our cafe were left clammable, but we are full-divided into many factions in the State, and fnipt out into many febifmes in the Church : and what hatefull and howid boffilities are reciprocated between thefe who are brethren by Nature, Nation, and profession of Religion! How might brethen by Nature. Nation, and profiles of Religion: 1 stow might we fill our Regillers with the name of Peleg, if we should take to beart the world breaches that are made among us., as the parents of this Peleg did the division in their dayer! O when well it be that the noise of our most unnaturall war shall be husht, that the manifoldruptures of our facred and civill peace shall be comented up that our condition be not fill a cause of fighting to all good Christians, and true Patriets, and of infulting to the enemies both of our Church menia, (where the Ark rested) which is not Eastward from and State! It may be a memorandum of our misery here, and of the sad condi-tion of three Kingdomes at once all involved in most blondy and wofull confusion; and may mind a gody and prudent Christian of the danger of abuse of a long continued peace, and of the severe chastifement of God upon the Churches and States which rather professe the forme then practife the power of Evangelical piety; and it may preach and prefe the duty of repentance and reall reformation with more and prefe the dany of reparamene and read reformation with more prefet caution against finitist relaficts, and may fixer up the hearts of fuch as are point and compassionate to betale therefered more frequently in private (upplication, and to perform both that and the publick with more fraccity and stronger of effections, that the God of geace may be pleased to put an end to our warrs, fuch warr as may strong our violatories as well in the tears of the violatory, as in the bloud of the vanqueshed, since whosever gains, the Kingdome lefth many loyall subjects, the Courch many Christian Protestants, and divers of them no worfe (as we may well hope) then fuch as have been redtermed by the precious bloud of our Lord and Saviour : and lastly, it may be be may (by the mercy of God to his people, and his justice on their enemies) see the result of all thu rage redound to his uffice on their enemies) fee the refute of all this rage reasons to the ruine of the Antichristian combination, who first kindled, and have ever since sometical these seasons with combustions; and that Pe-recius his application of the Prophety concerning the adjourning of the judgment of God against the Amerites to the Protestant State in in purgrams y Gros against a mounts to the rotepan state to England (Tont). in Gen, Difp.8, pag. 576.) may be made good upon the wicked of the Poplip party. The words of the Jesuiteren-dred in English are tiefe: If any begin to wonder why God suffers the English Principality to execute fuch a crual perfecution on the Catholicks, and yet to flourish and prevail; he will leave off to wonder if he bethink himfelf of Gods toleration of the Amorites for this reason, because their iniquities were not yet made up to the full, Gen. 15.16. but they will come at the length to their full growth and accomplishment; there will, come a time of Divine vengeance, too late for us perhaps, but for the differniation of the Divine prudence and providence fea-fonable and foon enough; which time (faith he) if any man think to be neer at hand (fince that Nation (he meaneth the Englifb) hath now fo far proceeded in raging perfecution)he fhall guip) nath now to tar proceeded in raging percention in that not much mille of the truth, as I suppose. So far this Authous; which prediction (upon the like grounds) may justly be retwited upon the Romish Church, and on the pretended (but mis-called) Gatholicks, whose rage hath been of late more rampant then ever, and therefore there is a great bope the time is drawing on that they may be made couchant under Christs Iron Mace, who would not be

Johan The division of the earth into different Languages Foktan) I he airsion of the cartainto americal Linguiges and people is noted by the name of Peleg, burkere fome obferve another division of the family of Heber; for Johan (by they) divided himself from the true Religion of his fathers house, which cannot be proved by Scripture: for he is mentioned to the control of the ed but in this Chapter, and in I Chr. I. and in neither of thefe places is any fuch thing recorded of him. From him is suppoled to descend the people of the East Indies, and of America also, where some say are remaining marks of that name, but in such particulars we cannot be certain, nor must we be either overcurious or peremptory.

See Annor on Gen. 22.24. and because if taken during the life of the first wife, she was not Lady or Mistresse of the family, as the husband was Mafter.

Keturab] This Keturab is not the same woman with Hagar. (her name changed) for Hagars name is continued, ver.12. nor is it likely that Abraham would make a bondwoman heir to her Mittreffe (for the right of his person) whom he dearly loved, and honoured, who would not endure either her, or her son to dwell in his family; and though Sarah were now dead, and could not make any quarrel of the matter as before; yet he would not give such an occasion of discontent to Isaac; who could not but take the return of Hagar to his fathers bed with offence; not is it like that Hagar being now about 80. yeares old, that he would take her for a wife, who married for the increase of his pofterity; northat the thould (being fo old) be the mother of fix fons, as Keturah was, ver. 2. nor is it probable that Keturah was taken to wife while Sarah lived, fince there is no mention of her at all till after her death; and it is probable; not till three years after, for he was no doubt as mindful of his wife, as Isaac of his mother, and as mournful, and so would not marry before him ; and (according to the order of the flory) it is most like, that he married afterwards: and it was convenient that I (aac being a young man, and mature for marriage, (for he was now fourty years of age, Gen. 25. 20.) V. 2. And it is to be noted, that by the better fort he was more commonly called by his worfe by the better for he was more commonly carled by his wonte name Edom, then by his better name Efau, (which fignificht made, or perfect) and rather from the rednesse of the portage whereabour he offended, then the rednesse of his body which was without his fault, as appeareth, ver. 25. He had (as fome think) a third name, which was Seir, from his hairineffe; for Seir fignifieth hairy; but in the Scripture it is not given him as a proper name, as Edom and Efau were, but es an appellative, or a common name, or title; for he was hairy Efau, as his Father was blind leac, whose proper name was Ifaac, and blind, an appellative tirle added to it.

V. 31. In denying Efau relief felf his fervant, Gen. 32.18, 20 and Efau his Lord, Gen. 33.13, in his hunger, except upon fuch hard termes, Jacob had shewed himfelf an uncharitable man, and a very unkind brother; but

this day It is probable that this was not the first time that Efau and Jacob had parley about the primogeniture; Efau was not a man fitly qualified for it, because he had more mind to be among unreasonable creatures in the field, then reasonable men in the family: for the Priefthood he was too profane, and men in the family: for the Pietthood he was too profine, and inder that little he is taxed, Heb.12.16, and here it is faid, that was meant the fittength of his confitution, as if he were already was meant the fittength of his confitution, as if he were already he despited it, verf.34. and for the double portion the privipered, or nuttly, and rather like a man with a beard, then a new | ledge of the first born, Deut.11.17. he had no need of it, for he could carve himself a competent maintenance with his fword, as his father foretold of him, Gen. 27.48. therefore has ving often, as it is like, made light of it, and promifed to give it up unto his brother, he now took advantage of his prefent hunger, to make a firm and final bargain for it to be ratified with an oath, wherein he did unkindly in denying relief to his brother in necessity, unjustly in requiring too great a price of that he fold, and impiously in tempting him to fo profane a contempt, if he had not fome fecret inftinct, or fome revelation /by his mother confulting with God, or fome other way) for the carriage of the contract in this fort; howfoever the great wifdome of God can order finall occasions, as this was, to great purposes, and can convert the weakness, and wickedness of men to his own glory : yet this must not embolden any to do as Jacob did, unless upon fuch warrant as Jacob had.

V. 34. defifed] Neither before nor after the fale of his birthright did he think or care how bad his bargain was by felling for precious a thing for so poor a price, but did eat and drink and go away without any repentance for what he had done. V. 20. But a few dayes! Heb. one dayes. Gen. 27.44. If we

loved God, our fervice of him, though it were for many years together, would not be tedious to us; the want of love to him makes men weary to ferve him, Mal. 1. 13. though but for a few houres, one day in a week, Amos 8.5. the day that should and tem noutre, one cay in a weet, cause s.y. the cay that model and would from effections were rightly tempered yeeld us more delight; then any of the reft : See Lini, 8.14.

V. 25, behold it mas Leah] It was Leah before, but then he did behold her, and faw her without her valls, for virgins in

modefly were vailed, or brought in the darke to the Bride

beguiled me] The cause why Jacob was deceived, was, for that in old time the wife was covered with a vail when she was brought to her husband, in figne or token of chaffity, and thamefattness. See Chap. 24. verf.65. And whereas it is faid, namesamets. See Ling. 24, ven.65. And whereas it is laid, that Judah thoughe Thamar to be an hatol, because the had covered her face, Gen. 28.15, the meaning is, that because her face was covered he kinew iter not/and because he knew her not he took her, nor for an harlot; or if had tot add wear wails, they were of another fashion, or worn at other times, and in another manner then Brides were wont to do; and though the might have been known to Jacob by her speech in the dark, as Jacob voice was known to Isaac when he was blind; yet her vail might be a cover for her filence; for that the modely of women appeareth, as well as by hiding of their faces; or her speech, being onely a low whifpering, it could not easily be difcerned. In this deceit, it is like that Leah acted her part after her fathers, as Jacob his, after his mothers direction, and there-in the was faulty, though in an inferiour degree, for he thewed himfelf a very unjuft man, and an unkind Uncle ; whereby yet lacob might be remembred of his deceitful dealing with his brother Efau : See Matth. 7.12, though God turned it to good, and might, upon this occasion, be disposed to repentance for what was past, and to patience under that condition, which ei-

what was partyane to patientee must that contained, which ethes his necessity, or his Uncles dishonethy put upon him.

V. 16, wie fo done in our country) Or, it is not the custome our Country. If it had been fo, he should have faid fo much to Jacob leven years sooner, when he effected his service upon condition to marry the younger daughter; this mental refer-vation of the cuffom, all this while, shewed it was not Labans cuffom, to deal uprightly; besides, it it were the cuffom, why did he against custom pretend a marriage, and call his neighbours to a marriage feast, betwirt Jacob and Rachel? this pretence of to a marriage realt, betwise Jacob and fractice of this pretence or cultom is often used against truth and right; as in the prohibibition of marriage to the Clergy, and the Communion-cup to the Lairy, and other particulars of the Romish Religion; which indeed in respect of the antiquity of truth, are but Innovations, though obtruded in the name of ancient customs.

V. 27. falfit ber week ] The word Shebang, in Hebrew, is fometimes taken for feven years, (So the Geneva Translation hath it) sometimes for seven dayes or a week, so here; the meaning is, that, for as much as the manner was to celebrate a wedding with feven dayes feating, as Judg. 14. 12. he would accept of Leah for his wife, and celebrate the nuptials after the wonted manner, and that done, he would presently give him Rachel, for whom he should serve the next seven years after, which he did; and that he flayd not for Rachel untill a week of yeares, is evident by order of the flory, for Jacob flayd in Mcfopotamia with Laban twenty years, Chap. 31.38,41. At the fourteenth year of Jacobs fervitude was Joseph born, before which time Rachel had been some good while a barren wife, and therefore, as our of hope of iffue by her felf, the gave her maid Bilhah to her Busband, who by her had two fons before her felf had any as the thirtieth of Genesis sheweth, whence it must necessarily be concluded, that Rachel was married before the fecond week of years, or feven years fervitude was expired, and fo that the was married to Jacob after a week of dayes, according to the phrase and custome already observed, not after the end of the second feven years fervice.

Rachel his daughter to mife | Two wives at once, if they had not been fifters, had been one too many for one man, as is implyed in the fift inflictution of marriage; yet besides them he had both their handmaids to be his wiver, Gen. 30. verf. 4.9. The law against plurality of wives was not yet expressely declared, nor against the marriage of two fifters : as afterwards is was, Levit, 18, 18, it is doubted therefore, whether arthis time either the one or the other were a fin in the holy Patriarch: it feemeth not likely that they having fuch revelations from God. fhould be ignorant whether it were a fin or no, or that being lo godly, they fhould live fo long in a fin against their knowledge; there was doubtleffe a disposition of the Divine provileage; there was a conducted an appendion of the Divine progression by Divine authority for it. For that should not be hastily prefumed, fince the chief warrant that can be pretended for Polygamy, or marriage of many wives at once, is for increase of mankind, and at the fulf Creation. tion in Adams time, and the renovation of the world in Noahs time, when there was most need of such means of multiplication. God allotted but one woman for one man; and for fuch like particulars as this of Jacob, though God have his hand in them, ruling and overruling them at his pleasure, though Gods part be alwaies pure and perfect, on mans part there may be corruption and infirmity, as in the matter of the benediction of Jacob, wherein concurred both God and Isac, Rebekah, Ja-cob and Esau: God being altogether just and holy in his act. they in theirs where every one faulty, though in a different degree; yet for the marriage of Jacob/though unlawful, at leaft doubtful) it may in part be excused, in that his minde was to have had but one that though he loved that one so affectionately, that feven years fervice feemed to him but a few dayes for her fake, verf. 20. and lived with her continually, he modeffly, and chaftly converfed with her all the while : Now that Rachel and Leah, made offer of their hand maids to his bed, as his grand-mother Sarah to his grand-father, and that he accepted of their fociety, nor for pleafure but for propagation to in-crease mankind, especially, to beget children for Gods Church, fuch examples must be no patterns for our imitation : ver of polygamy, or having more wives then one, fee Annot, on Deut. 17.

Rachel had beauty to make, her acceptable to Jacob; and to make Leah lovely in his fight, God makes her fruitful, while the other was barren: If Leah had been as fair as Rachel, or Rachel as fruitful as Leah, there would have been too great a prelation of truttui as Lean, there would have oben too great a present on cone before the other. Now God, who divides and dispension his favours as he pleaten, qualifiest them both in different kinds to be pleating to their hubband, and to moderate the affections of Jacob, that he may neither hate the one, nor dote upon the other. Favour and fruitfulners, and every definable thing, is his free gift, who theweth hereby, that oft-times they who are despited of men are favoured of God.

Thus doth natural corruption break out of one fin into another; fhe beginneth with envy at her fifter, but proceedeth to injury against God, and her injury is no leffe then idolatry; fo though the gave over her fathers idols, the became an Idolatreis again. For Images eaten for Gods (as the lewere, ver. 30.) must pread be Idels; the word in the Original is Teraphin, a word of the plural number, because they that addicted themselves to the Idolarry of them, loved them so well, as to have ufually more then one of that fore in their houfes. In the third of Hofver.4. Images and Teraphim are fet down as different things; the word for Image is Matfebab, which is the fame with Statua, or a standing resemblance, derived from a word fignifying to ereft, or fet up, foit may fland for an Image in general : but Teraphim fignifican a peculiar kind of Images, as before hath been expressed.

V. 20. [tole away unawares] In the Original stole away the

Multipli-cation is a blefting often promifed by God in favour to man; it is an ungrateful part in many to murmure at his bleffing; a wicked part, to prevent it by abortion, a devillish part to destroy the increase, and to make prodigal waste of mankinde, as ambitious Warriers do, who make no more scruple of slaying of a multitude of men, then a reaper to cut down a field of

# CHAP. XXXVI.

Verf. 1. [ He generations ] This genealogy declareth that Flau was bleffed remporally, and that his fathers bleffing, Chap. 27.39. took place in temporal things. The ambiguities and feeming repugnancies in this genealogy, may be briefly reconciled by thefe rules. First, some persons have many names, as Efan is called also Edom, in the first verse; Fasob alfo is called 1/14et, Gen. 32. 38. & 35.21,22. So one of Elaus wives the daughter of Ishmael is called Mahalath, Gen. 28.9. and Bafbemath, Gen. 36.3. and Sarah is called Ifca, Chap. 11. 29. And this not onely in proper names, as in the inflances fore-mentioned, but in names National, as the fame person is called fometimes an Hittite, Chap. 26.34 fometimes an Hivite, verf. 20. of this Chapter; because the Hivites were the greater Nation, and comprehended also the Hittites; and sometimes an Horite, ver. 24. of this Chapter ; and the rather because the one might in habitation be mingled with the other. Secondly fomemight in habitation be mingled with the other. Steodily Jone-tine the fame annie iglyen to Gercal priofits, as these were we called daids, vivo-called doods, three called Diffuss, or Di-fust, in this Chapter. Thirds, the grandfather is called also states, and the grand-child, (whether Nephew or Neces) and or daughter unto lim, 2 Ring 8 48,46. Fourthly, force are cal-led fons of others who were not their natural lifus, but adopted children; as Amalek, whose mother was Timnah, yet is he called the fon of Adab, verf. 12. to the one he was a natural fon, to the other a fon adopted. Fifthly, fome men had the names of women given unto them, as Timmah, and Abolibamah, mentioned verli40,41, were called by the names of the first mothers of their Nation

V. 5, And Abolibamab] The wives of Elau are not ranked in the order of their matriage, (for the daughter of Ilhmael was married to Efau after Abbilbamab)it being fitteft to name her first of whom he had leaft to fay; and her laft, who gave occasion by

Hom the face | This removal of Efaufrem Canain, is taken to be after he had dwelt in Sev, and had come thence to folemnize his fathers funeral, Chap. 35.29. after which time Heeb and he being upon good termes, are thought to have dwelled together, untill their riches (increasing as Abrahams and Lots, Chap.13. 6.) gave occasion of their parting. Or, it may be thus under-flood, that after Facob vias gone to Tadan Aram, or Mesopotamia, E fau after a time being encreased in estare, and finding his father, but especially his mother, fooffectionate to his brother Jauber, Dut especially his mother, ionirectionate to his prother Jacob, that he had no hope of any joy of living there, when he returned, tenoved himself, with his wives, children; and estate, (which he had gotten in Canaan) to dwell in mount Sciryver[3]. a place which haply pleafed him better for commodioufactfe of hunting, to which he was very much addicted, and where he 2.11. might make himfelf more room then as a fojourner with his father in Canaan could be allowed him.

better then the elder, there may be many reasons; as Fift, to be parents in old age argueth the continuance of Gods blessing. and of their good and ftrong conflication, when it was most like to fail for ever. Secondly, they more value furh an iffue, because they expect no more of that kind, and that makes it more dear, because more rare. Object, But Benjamin was younger. Sol. First, this is to be understood in respect of his elder brethren ; and for Benjamin, he was not yet come to any proof to gain fo much of his fathers affection. Thirdly, in the youngest they. look that the memory should hold out longest, and natural affection gaineth ftrength in its course, fo that the further it goeth the stronger it groweth. Fourthly, the young children are commonly more conversant with old men , fince they keep home, whereas the bigger children are much abroad. Fifthly, their innocency breeds acceptation without exception, whereas the elder children commit faults, it may be crimes, (as Reuben did, Gen. 35.22.) to grieve the hearts of their parents & fhorten their lives. Sixtbly, Old fathers decline towards the infirmity of young children, (as the Proverb hath it, once a man, and twice a child) and are commonly more tender, and kind to those who are by their tenderness more apt to be exposed to injuries by others. Object. But Benjamin he was younger then Joseph. and so was he also son of Jacobs elder age. dnsw. True, there was somewhat there, besides the reasons here alledged, which made Joseph so beloved of Jacob; as that he was the long deward and backward to the condition of the other, and to observe fired iffue of his beloved mother Rachel, and her fifth born that took away the great grief of her former barrennesse, and left no matter of mithap behind to afflict the heart of the father, as the birth of Binjamin, with the death of his mother, had done, and he was beautiful like her; and certainly, there appeared in young fofeph the presages of very virtuous acts, and employments of great importance.

The Greek word Position, uted by the LNX and the other Greek word Position, by the Latines, found both to the fame Renie, the one fignificant waried, the other waried in particular by pieces of feveral colours. This coat is here mentioned both as an Argument of Jacobs love to Joseph, and as an occasion of his brothers hate, and a colour and cover for their bloody plot from the eyes of their father. Some curiously inquire concerning the matter of Josephs coat, whether it were filk, or of divers kinds of threads, (which afterward was forbidden by the Law to be made of linnen and woollen, Lev. 19.19.) and concerning the making of innen and woolen, Lev. 19.1.9.) and concerning the maging of it, whether it were long, or with fleeves or no; but as there is no need of fuch nicety, fo can there be no good faisfaction given unto it. I will go down ] Jacob was so passionately affected with the conceit of his fons untimely death, that by forrow he is like to haften his own; and carried with the tyde of his diftemper becarry his griefto his grave. He was perhaps too fond in his love to fofeph, and new he finarts for it, as David did for doting upon Absolom, 2 Sam, 18.33. The excelle of one affection (the case being changed) turneth to the excelle of another; in both the best may offend, and therefore all must watch more carefully over their hearts, that their passions grow not too wild to be governed with grace, and reason.

grave] The word Sheel here used and Englished the grave. fignifieth generally the flate of the dead , without any reference to pain, or anguith, as Pfal. 30.3. Ifa. 38.18,19. and in many other places, especially in this place where Jacob, when he conceived that Joseph was killed, rent his clothes and refused com-fort, saying, I will go down into the grave anto my son mourning; for by the grave, he could not mean a place digged below in the earth, for he thought he was devoured and torn in pieces by some evil beaft, ver.33. much lesse that he was gone to hell, the place of the damned, because he was a good child, and had evident signes of the favour of Ged towards him; and particularly it is taken for a low place in the earth, and that either shallower, as the grave, Prov. 30.16. or deeper, as that devouring gulf which swallowed Core, and his company, Numb. 16. 33. or for the place and face of the damned, where they are thut up to fuffer torment Without mitigation or end. The Popish Divines in their Annotations upon this place find fault with our Translation for the word grave, and would fain have it be believed, that because Jacob thought his son wear not into the grave, and meant not himfelf to go to hell, that Limbus is the place meant by Sheel , a place bordering upon hell. where they must meet, and where there is no pain; and some of them deny the word Sheel to be any where in Scripture taken for the grave; but others of them confesse it is frequently fo taken. First, to shew the imparriality of Gods Spirit, which indicted unto the Pen-men of the holy Scriptures, who ufeth no connivence to the offences of any; therefore Moles, though he were of the Tribe of Levy, tels his faults, Gen. Moles, though he were of the Tribe of Levy, tels his faults, Gen. 43,43, & Chap. 49, f, &c. as well as Judahs; and his own deleas, Chap. 38,15,16. Num. 20. 12. and David, howfoever he is highly magnified, hath his faults laid open, chough done in fecrer, as well as others, 2 Sam, Chap. 11. & 12. & Chap. 24. and Jonah reports his own murmuring against God, and took a chiding for it, answering nothing in his own defence, and so his book is ended. Secondly, That we should normake Idols of the Worthies of former Ages, but confider them as frail men, though never fo eminent. Thirdly, To fhew them that the favours they received from God, were not rewards of their works, but the exercises of mercy, whereof the best thought themselves most unworthy, Gen. 32.10. Fourthly, To take away all boafting of a carnal birth, and therefore out Saviour himfelf, though immediatly born of a pure Virgin, was lineally defeended from this Judab, and Thamar, that men might reflect him for himself, not for the worth of his progeni-tors in the flesh; and so the vanity of the Jews brag is evident, who gloried that they were not born of fornication, Joh, 8.41. by Judah (for from him they are called Indei, Jewes) who here committed incest with the widow of his own sonnes. Fifthly, To comfort penitent finners, though they have foully fallen into groffe offences for though divers of the Patriarches were great finners, as Reuben, Simon, Levi, and Judah, yet were their pofferity all sharers in the Land of Canaan, and all their names written in precious stones on Aarons breast-plate, Exod.

In regard that Judah made offer of his third fon Spelah for an husband to Thamar, ver. Verf. 3. HE put them in ward] In Joseph's case (once a great favourise in the house of Potiphar, and asterwards with wrath and reproach turned out of his house, and committed to prison) we may observe the fickleness of humane favour; and in thefe two Court Officers , the flippery condition of Courtiers; who either by their own errours, or others malice, or the mutability of the minds of their great Mafters suffer many times a lamentable change of their effaces; which yet is often times nor lamented, because their former elevation (haply abufed by infolency of carriage) hath made them observed with an envious as well as with a curious eve.

hand or foot] A proverbial Hyperbole, or figurative speech, whereby as much authority as may be fignified, that leffe then is truth may not be conceived; or it may be understood of the publick affairs in the government of the Kingdome, wherein nothing thall be done, no man thall use his hand to do any thing in the affairs of State, his foot to go on any publick melfage or ambaffage without Josephs advice. By all this hath Jofeph atemporal recompence of his wrongs; for his fervitude, he hath a ring, an enfign of liberty; for course rayment, such as was fuitable to a fervile condition, he hath a fuit of filk or very fine linnen; for the fetters of his feet, Pfal. 105.18. he hath a chain of gold about his neck; and for a fixed prifon or dungeon, from whence he could not ftirre, a moveable Chariot (at his pleasure) to bring him abroad with honour; and for contumelious terms, and reproaches, fuch as his lewd Miffress loaded him withal, loud acclamations of honour; as Abrech. tender father of a King, or bow the knee; last of all, for a full accumulation of comforts, he hath as ample recompence in proportion of time, as in the kind of his usages, for the years of his affliction were but about thirteen, the years of his honourable preeminence or principality fourfcore: which may chear up the hearts of the godly , though for a feafon they fuffer under the prevailing power, and spight of the ungodly, for they may assure themselves that God (if they suffer not as evil doers) will do them right, and make them a full amends for all their wrongs.

V. 45. Zaphnath Panneab] Egyptian words, as the most of those, who professe especiall skill in the Oriental Tongues, rake them : and some so leave them without any interpretation at all : the Vulgar Latine repeating them, addeth (in the Egyptian tongue] but those words are not in the Hebrew Text : the former trord Zaphnath, some derive of the Egyptian word Ze-phon, signifying an Idol, whose name is given in honour to Jo-seph, as the names of Bel and Nebo, 16a, 46.1. to Belshazzar, Nebuchadnezzar; but as fome expound the name, according to the Egyptian tongue it fignifieth the Saviour of the world : because Joseph, hy his storing up of provision against a general famine, was a means to preferve them from perithing by famine. But they that reduce the former word to an Hebrew Original render it [a revealing of feerets,] and that is more perti-nent to this flory, wherein the most remarkable thing reported and most acceptable to Pharaoh is the interpretation of his deam of the feven years of plenty, and famine; and his provi-fion by the former, against the latter. This giving a new name, especially with such a signification, is an act of sayour; with an intent of honour. See Gen. 17.5. & Dan. 1.7. The latter pare of this Name is left by fome learned Hebrews as inexplicable, though it be faid by an eminent Hebrician in his centure of the Vulgar Latine of the Pentateuch, that the Egyptian , Punick, Arabick, and other Eastern Tongues are Dialects of the Hebrew,

and of neer sffinity with it.

danshier of Potipherah This is not the same man whom Jofeph first ferved, when he came into Egypt, for there is difference betwist the writing of the names; and the titles and offices of the men; nor is it like that in fo fhort a rime (the time of Josephs imprisonment ) the Captain of the Kings Guard, or Josephs imprioring the Captain of the angles Guard, or Provoft Marshall of Pharach, should become either a Trince, or Prices of Or; but most improbable that so good and chaste a man as Joseph was, would take to wife the daughter of such amother, as his wanton, and (many other wayes) wicked Miftress was: the first Poriphar was of the City Memphis, this

Priest ] Or, Prince, Exod. 18.1. the word is taken both wayes, because anciently both offices met together in one man, who was both Prince in the Family, and Priest in the Church; and for that (as some observe) it was the manner of Egypt, out of Philosophers to choose Priefts, and out of Priefts, Princes: but if this Potipherah were a Prieft, he was an idolatrous Prieft, and then Joseph would not for Religions fake accept of his daughter for a wife, it might be a fitter match for him if he were rather a civil Prince, then a Pricft, and yet being an Idolater, though not a Master of Idolatrous mysteries (as the Prich was) it is questionable whether it were well done of him or no. In the general it is not good, nor fafe to be unequally yoked in respect of religion, whether heathenish, or heretical, 2 Cor. 6. 14. fince there want not wofull inflances in some who of the ftronger fex, and wifer fort have been drawn by the weaker to fide with the worfer part; and fo, though with hope, and purpole haply to win others, have loft themselves; if then it were not some onset of unavoidable necessity, or that Joseph had not especial direction from God in his marriage (as in other things he had) the act was ill in him; and if the cafe were fuch, that he could make no better a choyce, or were difpenfed with for it by Divine inftinct, the example as rare, or extraordinary, is not to be drawn into a rule, nor can be lawfull where the reasons are not alike, because of the expresse proble

But for that Transfla-tion of the Sepusagint, which was not free from errour, when it was at the best, but now is much more corrupt then it was at fift, there needs no more ado, but to correct it by the Hebrew Text in this verie, which must be the Standard to all Tranflations and Testimonies. For this matter that which is more considerable, and questionable is, how it cometh to passe, that Stephen speaking of the number, and Saint Luke writing of it, both fet down no fewer then feventy five, Act. 7. 14. The Doway Translators (in Augustines name) making the doubt infoluble, give it up as a mystery to mere silence; and this the rather, because they would have the Scripture conceived to be fo hard, that it is not fit to be read by Lay-people : and shey that answer the Objection, either endevour to clear the greater number from errour, or else confesse it with Caution against inconveniences that may ensue upon it: For the first, the reconcilement is endevoured by fome, by faying, that to make up that number, there is use of the figure, called Anticipation, whereby they are put in, as then brought into figypt, who were not born until afterwards; who yet might be faid to come in with Jacob, because they were once in his loyns who came this with Jacob, became they were once in his loyns who came thi-ther, though not then when he came in, their Father being both born, and in Egypt allo, before the time of Jacobs re-movalls to Levi is faid to pay tithes to Melchifedte in Abrabam, Heb. 7. 9. though Levi were not till at least an hundred and fifty years after their time; as Leah is faid to bear unto lacob thirty three fons and daughters, verf. 15. of this Chapter, and Zilpab to bear unto Jacob fixteen foules, vers. 18. whereas they were not all their immediate children, but many of them grandchildren for which they never groaned, for they had other mothers, both to conceive and bear them; and of those who are reckoned for the children of Benjamin, who are of the numare reckoned for the children of Beijimin, who are of the num-ber of them that make up the feventy, that came with Jacob into Egypt, Naaman and Ard, named, verf. 21. were grand-children to Beijamin, the fonnes of Beig, Numb. 24,00 which were born after Jacobi coming into Egypt, for Beijamin was then too young to be a grandfather, when Jacob came thither; and there is this relation betwirt the progenitors and their offipring, that as the children are included in their parents, fo of lipting, that as the chuaren are included in their children; as where the conditions included in their children; as where God cheeting up Jacob concerning his journey, sellent him noe onely that he will be go down with him into Egypt, but the will bring him up again into Cansan, ver. 4. which is principally to be underflood of his poficity. See Annot, on ver. 4. OHER. But if these five be added, because they were virtually in the loynes of Jacob, there might be added as well five thou-fand, yea fix hundred thousand to which the I fraelites encreafed, as bath been noted on ver. 3. for all these are virtually included in Jacobs loynes. Answ. That will not follow: First, because the scope of this genealogie was to distinguish the Tribes, and to flew from how fmall a number they increased to Tribes, and to thew from now man a numer tury increased to forgress a multitude. Secondly, that being the purpole, in multi-be confined to a certain number, and that number made up of further either were, or might be, of one family; as the father, for, and grandshild, and great grandshild, which Jacob might fee before he died. And of these the most being such as he the perior include. And of their the more configured as the brought with him out of Canaan, they might all in reference to Jacob be forted to his company. Some conceive that befides Jacob, and those that are reckoned as descended from him, there might be added five women of his company, who were wives.

make clean, but Reuben is not likened to it for that because he was hot by luft, and unclean by polluting his fathers bed; but he is compared to mater for its lightness, and unstability, which is easily moved by the winds into waves, and naturally cannot contain it self in its own bounds, but wheresoever it is poured out runneth to the lowest place; and for the greatest part of it, the Sea, it is in continual motion of ebbing and slowing; fuch is the mind of a man led away with his luft, as Reuben was: for concupicence of women taketh off the conftancy of man, (as we fee in Solomon) making his heart too effeminate, and feeble to be flable and fledfaft in any good thing. The and recover to be trade and recourt in any good thing. And word here used is joyned with vain, Judg. 9. 4. mong themselves, Judg. 5.v. 15, 16.

thou [halt not excel] The words in the Original are Imperative, do thou not excel, or excel thou not, but the fenfe is Indicative, or prophetick; as our Translation hath it; and yet the Hebrew phrase imports, that though Reuben may seem in his Hebrew phrate imports, that though Action way teem in me levirie and unflableness to follow his own mind, and to do his own will, he doth thereby undergo the curse which God as by a kinde of commanding law hath laid upon him, as David obferved of Shimei his curfing, 2 Sam. 16 11. and accordingly it appeareth in the holy Historie, that he did not excel either in the number of his Tribe, as it in the 33 of Deut.verf. 6. after the Original reading; or in valour, or any excellent atchievement.

Because thou wentest up] For a pang of lawless lust, and a moment or two of finful pleafure, he loft the prerogative of his birth-right, which would have been a fettled and perpetual honour to him, and his posterity: So far doth sensually befor and befool men, when they give way unto it, and therefore is the luftful wanton by the Wife-man called a simple one, a young tuttu wanton by the which the case a proper one, a people man outful madefunding. Mine bonen, be not thou! By bonen, may be meant his foul, which is the honour and glory of a man; and by the word here used for bonour, or (as some reade) glory, is sometimes under-Rood the tongue; 25 Pial. 16.9. & Pial. 30, 10, Act, 2.26, for that alfo is the glory of a man above the dumb creatures, and by an eloquent use of it one man glorieth above another. The meaning may be , that he neither consented to them in word , or thought, and therefore he would not fuffer in his honour and reputation for their fakes; and though some would glory in the contriving and success of such a mischievous design, he was so

contring and luccess or luci a militureous actign, ne was to far from glorying in it, that he aid detect and abor it.

Stew a man 1 That is, Hamor the King, the Prince Sheehem his son, and their subjects the citizens; for the singular number nis ion, and their indices the chizens; for the infigurat number is put for the plural, as the plural number is also divers times put for the fingular in the Hebrew tongue.

Self-will 1 If in solain wrath the ill deed had been done, it

had not been so bad, but there was time to consider of the project, and reasoning against it, and a wilful resolution against that reason; and the more wilful, especially upon deliberation, the more wicked.

They digged down a wall ] The words ( as some render them, ancy augges a norms was 1 in e words (as iome render them, for they are ambiguous) are, They boughed an oxe, or bull, fo the Seventy, by the bull, meaning him who like a bull ruthed upon a rape, and who was as the bull of the herd, the chief of the city; but an oxe is put for oxen, the fingular number for the plural, & fo the words are understood of the violent driving away of the Spoyl of the Shechemites cattel, Chap. 34. 28. and cutting them with their fwords that would not drive fociably with the rest of the herd. But the best reading is, they digged down a wall, and though it may be then the city was not walled, they made fome violent breathes into the walls of particular houses, or chambers, and most likely where Hamor or Shechem were, because their chief quarrel was at them, for the abuse of their sister.

V. 7. Curfed be their anger ] He curfeth not their perfons, but their wrath; we must pray rather against the wickednesse of the persons, then against the persons of the wicked, as David prayed not against the person of Ahitophel, (as that he might come to nought, and hang himself as he did ) but that God would turn his counsel into fooiifhness, 2 Sam. 15.31. Yer fometimes he curfeth wicked persons, Pfal. 109 from the 17.to the 20. and elsewhere, whereof we may say, that his cursing might be either a prediction, not an imprecation; or if so, yet conditional, (upon a prediction, not an imprecation; or it to, yet conditional, (upon fuppolal of their perfeverance in fin, or unless they repented) not absolute; or if absolute; Davids judgment, and zeal being guided by Gods Spirit, (as Jacobs now was) that might be lawful to them, which to persons not so qualified would be unlawful: much less is it lawful to do as Simeon and Levi did, for that of Solomon is a good rule in the general, Say not, I will re-compence evil, but wait on the Lord, and be shall fave thee, Prov. 20 22. I will divide them in Jacob] By Jacob and Ifrael, here, must be meant not the person, but the posterity of Jacob, or Ifrael; and whereas he saith, I will divide them, he meaneth God, by whose Spirit he spake, would divide them, or that he would divide them by his prediction, or prophetic, as it were, passing, his word, they should be divided; as Exchit is faid to came to deftroy the city, Anound be strided; as Exercic as tale to come up after the entry.

So that the Tribe of Simeon was under Judah , till God gave them the place of the Amalekites, Chr.4.43. Thus they were divided, part living there. & part in the Tribe of Judah, as hath been faid. This curfe of their division is denounced as a meet punishment for their curfed union. It for falls out many times by the distribution of divine Justice, turning many wicked conspiracies into mutual hostilities. And we fee by experience, none are more bitter against each other, then those whose society hath been too sweet, and communion too neer, that hate being mutual, and reciprocal, which was but on one fide in the buffness of Amnon and Thamar. 2 Sam. 12. In fetting down this curfe fofully, we may observe the fincerity of the facted Writer, who (though he were descended of the flock the lateral writer, win (unough ne were descended or the Hoose of Levi) committed to perpensal record the crime, and curfe of his progenitor: if his pen had guided by any motion of fleth and bloud, he would not have blazed his finne, and flame, in this fort; but this is the manner of those who are guided Gods Spirit, to difhonour themselves to honour God : So doth Mofes again, Exod. [hall praise] The passages betwirt Judah, and Joseph his unknown Brother, but known Lord of Egypt, Chap. 44. 16, 18, &c. and his pleading and prevailing with his Father 16, 18, &c. and his pleading and prevailing with his Father for the fending of Benjamin thither, Chap. 43. 3, &c., thew him to be a man of good parts, and fpirit; yet this feems rather to be fpoken not of the person of Judah (who dyed in Egypt, and while he lived did no great matters to make him famous, dignity, ver. 10. and an inectify to God; for when others are blamed for their deceit; Judah's commended for his fide-lity, as in the 11.0 Holes, Ephraim compelled me about with lets, and the boule of If year with deceit, but Judah yet wheth with God, and it faithful with the Saints, Hol. 11.12. The word used by Iacob hath an elegant allusion to the name of fudah coming Jadab, to praise, or to confest; and while they praise him, they chall confesse his prelation above them. It is observable, that Judah having formerly offended with Thamar, his fault is paffed over in filence, while the finne of Simeon and Levi is remembred with reproach and imprecation; whereof the reason may brea win reproace and imprecation; whereof the realon may be, that as the crime of their configing, brethere was more hai-nous, so their dispositions were more harsh, and hard hearred; for Judah confessed his fault with terms of aggravation, . Chap-38.26.and they stubbornly stood to what they had done, when their good father, with much grief and anguish of heart, rebuk-ed them for it, as fearing the mischief that might come of it, even to the ruine of himself and all his family, Chap. 34. ver.

V. 10. The scepter shall not depart ] All Christian Writers ge-

nerally expound these words, as a Prophecie of the coming of the Meffiah, that is, Chrift, and of the authority, state, and condition of the Tribe of Judah, or of the Jewes (who take their name from him) with reference to the Mcflish's coming; and hereto agree many of the learned Jewes, as we fee by the teffimonies of Manafs. Ben. Ifrael, in his 6; Queft. upon Genesis, though in the particular exposition, and application, there be much difference, nor onely betwirt the Christians, and the Towes, but betwirt both forts of them among themselves; the words which are of most importance in the Prophecy, which require the most exact discussion, and clearing, are the words require the mode exacé discussion, and clearing, are the weats Septer, Sydach and Shible y verthe other words, having some ambiguity in them, must not be slighted. First, for the word Septer, sin the Hebrew Shierh in its first signification it is taken for a Rod, or a Staff, as the Rod which maked out the Tithe, Lev. 2, 2,3; in called Shieth. Secondly, because there might be a Rod or Staff of other matter, in Sigure and measure like unto that which grew out of a tree; the fame word is uledfor that Rod which is made of Iroz. Pfal, 2.9. Thirdly, it being the use of such as are in Authority to have a Rod, or Staff, in their hands, as a fign of preeminence, and power (as Judah had his Staff, or Rod, Gen. 38.18. and Mofes his, Exod. 4.2.) (though the word be Matteb, and not Shebet) a Staff, or Rod, is taken many times for the Rod, or Staff, of a Magistrate, but especially for times for the Koa, or starr, or a wagnitrate, but especially to that of Kings; and because; though kings at the fift used furth flaves as naturally geow, yet afterwards, for greater glosty and majesty) they were made of gold; as Heft, 4. II. thence fourthly, by a Mesonymie, whereby the fign is fet for the thing fignified the word Shebet, or Scepter is taken for a Kingdome Dominion or power of Government; as, The Lord hath broken the flaff of the wicked, the fcepter of the rulers, Ila. 14. 5. where the former word is Matteb, the latter Shebet; and there are many other places, where it is used in the same lense. Fifthare many other places, where it is used in the sime time, time, they have been strong to the time the cause the Tribes came of one flock, that is, Jacob, as many rode or branches out of the body of one tree; or because every Tribe had a several Rod, with its mane, written upon it, Num. 17.1 ,2, though there the word be Matteb, not Shebes, which is alfo divers times taken for a Tribe; as Num. 1.4,16. Sixthly, because a rod or a staff is used to strike withall, and strokes are not induced without pain; the word Shebet is taken fomenot inducted witnout pairs; (in world South is taken in witness for a blow, a wound, or for affilicition, because when it is felt, the body and mind both are affilicited: So faith Job. Let him take caway bis rod from me; the world is Sobete, 10 bb. 3A. There be other acceptions of the word Sobbes, but they nothing concern the explications of the Mora Seese souther botting concern the explication of this Text. In this place the word Seeser, or Sheber, in the Hebrew, may be taken first, for a Rod, or Scepter, or some other thing which is carryed, either by Magifirates, or by others before them, to impore their power, and im-print a terrour in the minds of fuch as are subjects to them, Rom. 13. ver. 3, 4. As before the Romane Confuls were car-ryed Rods and Axes, and our Magistrates have a Staff in their hands, a Mace or Sword carryed before them by others, which are not to be taken onely for Ceremonies of State , or power, but for monitories of duty, as of justice in the Governours, and of obedience in those that are under their charge. Secondly, for that which is signified by a Scepter, that is rule, dominion. Thirdly, the word Sheber, a Scepter, is taken for a Tribe, Judg. 18. 19. So it may be faid that the Tribe of Judah, (that is the pofferity of Judah bearing his name, as the pofferity of Iacob, or Ifrael, bare the name of Ifrael ) thall not faile, neither in faccoffion , or appellation and title , until Shileh

from Judah] By Judah, is meant not the perfou of Judah, because the Prophecy foreshewith what shall befall in the last dayes, ver. 1. but the Tribe of Judah, or the Nation of the Jewes, with relation to that Tribe: this bleffing of Jacob looking beyond the person of Judah, and a great part of his posterity, may admonish us to reach out our respects to the good of those who are remote, and far diffant from us; a confideration which may correct the common neglect of most, who confine their care to their own times, not caring what becometh of those, who must come after : hence are fome fo indifferently minded to the remainders of Idolatry, that while they fear no return of it in their time, they forecast no caveats for the future; fo many waste woods, and very few plant any, not thinking what need their posterity may have of timber to build, and fewel to burn; but many more rashly rush into marriage, not thinking so far before-hand, as to their next iffue , nor counting beyond the dual number of man and wife . to provide an inheritance for the beritage of the Lord, Pfal, 127.3. which may increase to a numerous posterity.

But the word in the Hebrew text is Shilob derived from (halah, which fignifieth to ceafe and be quiet, and peaceable; and the fame is taken not onely in a paffive tenfe to be fo, but is an affive, to make fo, and foir is pur for a prosperous, or safe maker or Saviour, the Author of quietness, and safety to others; it ia taken alfo for the tunicle, or skin, in which the child is erapped in the mothers belly, because there the child lyeth in peace and quietness; whence by an usual Metonymie or figurative taking of the continent for the thing contained ( as the Gup, for the liquor in the Cup; the house, for the people in the house) it is taken for the child that was wrapped in it. There (as he maketh the computation) continued untill Hered the Askalonite began to reign: which was about the thirty fourth year before the Nativity of Chrift. For a great part of which time there was a Synedrion , or Sanbedrim, (as fome commonly and corruptly call it) or Senate, which was three-fold; the first confisted of three perfons : the fecond of twenty three; the third, and principal, greatest sway in elections : and of this Tribe, with the Tribe of Benjamin, (which fluck to Rehoboam, when the other ten Tribes revolted ) confifted the main body of the Commonweal, and fo Facobs posterity were called not Reubenites, nor Simeonites, &c. but Jews, from Judah. So taking the Scepter not merely for a fign of Regal Authority, but for a Principality, and preeminence of power, (though with a divers form of and confequently in the Tribe of Judah, (which made the principal part of their Common-weal) for they had a Syncfrion after this in their Synagogues, as is plain, Matth. 23. 34. And yet some ignorant physicians there might be, who might be as like to kill as to cure; for the knowledg of physick at the first, (as it falleth out in other professions) was but little, else should not men have been Deified for fo finall a matter, as the skill of drawing of a tooth, and of loofening the body by a purgation, as AE culapius was, Cicer, lib. 3, de Nat. it might not be of an offensive smell to such as came neer it. The Egyptians, because they wanted convenient and seasonable burial places, by reason of the inundation of Nilus, and would not burn their dead bodies (because they thought fire a wild beaft, as the Perfians did not burn their dead, because they offcemed fire to be a God) betook themselves to the art of embalming; and therein have been so good proficients, that they have kept and therein have even to good proncients, that they have kep fome of them thoulands of years, and from Egypt they are transported into other parts of the world, to be used for medience. And hence the Jewes brought their custom of embalming, which they used in the burial of Kings and great men, as of Afa,2 Chron. 16. 14. and of Chrift, for which they made ufe of Myrbe and Aloes, Joh. 19. 39. Alors (to named of the Hebrew word, abatim, or abatab) is a sweet wood, whereof perfumes were made; with thefe, other fweet odoriferous ingredients were compounded, and the more for that the body was to be carried a great way to the burial, and because the Egyptians were curious this way, as Herodot. sheweth, lib. 2. and their curiofity now and then proceeded to a ridiculous vanity, for fometimes they furnished tables with meats, and fet them before the dead, as if they were to take their meals like living men ; and they used to keep their parents dead bodies at home. and fometimes to pawn them, and he that did not redeem fuch a pawn, was held infamous. By this embalming, the godly which furvived, might be admonished of such a corruption of nature by fin, as makes the body of the most holy Saint, subject to an ill and unfavoury fent; onely Christ was embalmed without necessity, for his Body was secured from corruption, Pfal.16.10. Act. 2.31. & 13.35, though haply they that beflowed that coft and pains upon it, did not think to of it: the Papiffs will no: permit him that peculiar priviledg, but as they make the Saints partnerswith Christ, in other his prerogatives, so do they in this ; for they tell us of Fr. Xaverius, one of the first ten that fer up the Society of the Jesuits, that his dead body, after fifteen moneths, was found covered with lime, and that it was not onely untoucht, or untainted, but that it breathed out a very fweet finell to them that same neer it. V. 4. Joseph Hale unto the house of Thurabol That logical a favourite, so known the house of Thurabol That logical a favourite, so known the house of them without need, may seem not to consist with his preeminence, or pradence ; yet there might be many reasons for it ; it might be his modefly, to be beholding to some Courtiers to mediate for him with the King, who haply had done the like office for them; and by making them mediatours, he took occasion to give them full information, and fatisfaction touching his motion, and to engage them to fpeak for it, who otherwise would be forward enough to frame exceptions against it, and to traduce him for it, as it he meant to defert the King, or did disdain his Kingdom, as not good enough for the interment of his dead Father, which had kept him while he was alive: And he might have cause to fear offence the rather, if (as it may be fall the best and worthiest men, by the fickleness of the Kings favour, or the falshood of supplanting Courtiers) his authority and acceptation were any whit weakned, the times of necessity, which caused his advancement, being now expired. Or it may be the ceremony of mourning, required his residence about the dead corps. Or last of all perhaps it was against the ceremony of the Court for a manin a mourning habit to appear in the presence of the King, as Effh.

V. 7. all the forvants] A very great number of them: for all, is sometimes used for many, as Matth. 3.5. as many is put sometimes for all, as Rom. 5.19. By one mans disobedience, many were made sinners, that is, all. It is not usual for Court grace to hold out fo long as Josephs did, especially to one of another nasion; but being the favourite of God, he made him the favourite of great men; and fuch was his prodence and sweetness of disposition, ther he kept the height of honour without hate or

envy.

V. 8. onely their little ones, and their flocks and herds] The little ones could not look to themselves, much less to their flocks and herds, therefore some great ones were to be left, to take the

charge and care of both.

V, 9, a very great company ] Some for defence and inforcement, in case they should be affaulted by the Canaanites in the way or their way stopped, or the burial place denyed; and for Tacobs more constant and honourable memorial, for as he honoured God in his life, so he is honoured at his death; for them that honour me (faith God) I will honour, 1 Sam. 2.33.

V. 10. valley of Atad] The place is so called from the mul-

titude of brambles or thiftles, for Atad fignifieth a bramble, or thiftle; in after times it was caled Bethagla, that is, the house of the ways, or circuit, (as many expound it) for the first part it is Beth, a house, and for the rest, some conceive it is derived from galal, which fignifieth (among other acceptions) to lead or compafs about, as those that mourned for Jacob, went about to bring him to his burial place, or compassed his corps or grave, about

beyond Fordan] It they went the next way from Egypt to the burial place (which was the cave of Machpelah before Mamre) that was in respect of Egypt on this fide Jordan; and then their mourning at Atad or Bethagla was well toward fifty miles beyond the fepulchie; if so, they buried the corps ofterward, and then there were so many miles of lost labour in coming back to do it, for which no good reason can be rendred. It may be more probable that they went about, though not for fear of the Canaanites, (for the Egyptians at that time were more formidable to the Canazoites, then the Canazoites to them) nor that they myffically went that way, by which the Ifraelites afterwards were to pals from Egypt into Canaan, yet for more commodious passage for so great a company, which could not conveniently travel in a narrow way, they fetched a compass about, which occasioned them to pass the river Jordan, before they could come to Atad or Machpelah, which was beyond Jordan, not only in respect of Moses his abode when he wrote this story, but in respect of the local fituation in the order of their journey. Some learned Hebricians make a great difference berwixt begneber, and megneber, the former they will have to fignific on this fide the latter beyond but they make not good their observations by any fit inftances, nor will their exposition fort with the situation of places, according to the exact topography of this jour-

fore lamentation The Egyptians made very great shews of much mourning; fee the Annot, on verf. 3. They mourned by themfelves, and toleph and his company by themfelves; and howfoever that mourning of the Egyptians were full of vanity and superstition, yet that of Joseph (it is like) was grave, religious, and fincere, with fuch discourse, as so holy an example

might minister unto them.

V. 13. field of ] The most ancient burial, even of the best beleevers, and most religious persons, was in the field; for that purpose Abraham bought this field of the children of Heth, Chap. 23.v.17, 18, 19. And Mofes was buryed in a valley, though the particular place of his sepulchre be unknown, Deut. 34.6. And so were Kings also buried, some in their fields, 2 Chron. 26.23. and fome in gardens, 2 King, 21.18. And fo was our Saviour buried Joh. 19. 41. The heathens in their burials observed a double caution; the one that the dead should not be buried in Cities; which was forbidden by the Emperour Adrian, upon a penalty of fourty crowns upon them that did it, and the Magistrate that fuffered it, Cel. Rhodig. Antiq. Lett. lib. 17. cap. 19. The other, that out of Cities burial places should not be made in fruitful, but in barren ground, ib. c. 20. So Plat in his fecond book of Laws, among the laws of Lycurgus, one was that burial places fore, and give him occasion to ask this question, Am I in the

nor devils can abuse the body of the dead; but in this respect I should be in the ground neer to Chutches, and round about them, that youth, accultoned to the fight of graves, might be the more hardened against the apprehension of death. Plutarch in the life of Lycurgus, p. 58. Among Christians the places of remote from the communion of men, fome in Churches, and Churchyards; Arthe first, burial in the Church was allowed onely to the patrone or incumbent; after, fuch as were of eminency for holines, or estate, were admitted to it, as by especial priviledg; now it is fo common, that it becomes very incommodious to humane fociety; besides, many are so tainted with fuperstition in it(though they be not Papists, who most abound with that vanity )that if their friends, children or other kindred dye of the peftilence, they think they are not buried like Christians, unless they be laid where others are, who did not dye of a contagious difeafe. Dub. But is it not better ordinarily to bury in Churches and Churchyards then elfe where? Anfin. First. In respect of the dead, it is all one whether he be drowned, or burnt, or buried; and if buried, all one where the grave is made for him. Secondly, in respect of the living, it is novsom and unwholesom to bury there, whither the living have often occafion to make their recourse; especially in pestilential times, and most of all if the graves be not digged very deep. Thirdly, though we put no religion in places, in the time of the Gospel, yet it is not comely for religious persons to make the house of God a Golgotha, Dub, But is it not lawful for any to be buried there ? Anfw. Yes, for the bodies of the Saints, having been living Temples of the Holy Ghoft, I Cor. 6, 19, are better then the material Temples of wood and ftone. But yet they that furvive (if a living dog be better then a dead lion, Ecclef. 9.4.) are more to to be respected then the bodies of the dead; especially, and fo it were fimely better, that none at all floud be buried in Churches then that it should be so common, as now it is. of Machpelah] See Annot. on Chap. 23.9. & Chap. 49. 30.

V. 16. fent a meffenger] Hebr. they gave charge, or, advertifement to Fofeph, without any express mention of a messenger, or meffengers ; yet fuch were used, two, fay fome Hebrews, and they name them, Dan and Naphthali, who were brought up together with Fofeph, and fociably imployed in attendance on Facobs flocks, Chap. 37.2. Others, take it to be rather Benjamin, who was most gracious with Fofeph; both are uncertain; all that may be fafely affirmed in this matter is, that fome one was employed in the meffage, who was no ftranger, and fuch a one as was worthy of fuch truft.

thy father did ] It is not like their father knew it, (fo charitable was Joseph to his brethren, so chary of his good fathers contentment ) for if he had known he would have given me fome touch of it in his speech to his sons, Chap. 49. 28 well as he did of the faults of Reuben, Simeon and Levi; and if he had known it, Jacob knew Joseph to be so good, that he would need no such mesfage to do them no hurt; It is probable then, that their guile making them afraid, they fained somewhat in their fathers name, that might deliver them from their brothers displeasure.

V. 17. fo fhall ge fay unto Fofeph ] To make their peace with Joseph, whose goodness was suspected by their guilt, they plead for pacification and pardon, by many arguments; First, by the defire of his most honoured, and dead father, whose request to Joseph had the power of a command, which he might have charged upon him with an oath as verfig. Secondly, the relation of brethren, who under that title were to be tenderly dealt withal, though (when time was) they did not deal with him accordingly. Thirdly, as penitents, they confesse a fault and crave pardon, and as unworthy to be called Jacobs sons, they call him Josephs father, wherein also they infinuate his paternal renderness to Joseph, loving him more then all his other children, Gen. 37.3. Fourthly, they add to these motives of charity, a motive of piety, which is, their agreement and consent in the service of God; Forgive the trespass of thy servants of the God of thy father; by which phrase, the God of thy father, they feeem to imply, that as Joseph loved his father for Gods sake and his own, so they would have him love God for his fathers fake; and by pleading thus, they mean that having one God, they should be at one among themselves.

mept] As pitying their perplexity, and grieving that they made doubt of his good will towards them, of whom they had fo good proof, before his fathers departure out of this life.

V. 18. fell down Here again they confirm the prediction of Josephs dream, Chap. 37. verf. 7, &c.

V 19. am I in the place of God] Or (as fome Hebricians render the words) am not I under God? First, of the former reading; They had called themselves Gods servants, verf. 17. and prefently they fall down before him, verf. 18. and call themfelves his fervants, as if they put him in Gods flead, by fearing him more then God; for it feems they feared his revenge, more then Gods vengeance; This might make him think worse of their homage done unto him, then at other times beplace of God? That is, in Gods stead to revenge my self, or their children, that it might be surely performed by that gene-take vengeance into mine hands, which belongeth to him. See ration, in whose time their deliverance was brought to Deut. 32.25 Rom. 12. 19. Heb. 10.30. Or, may I take upon me to paffe. rurn that to your hurt with God bath ordered and disposed for your good, as if I were a God as well as he? The former exposirion bath best coherence with the words that went before and the latter with those that follow after: and either may be true. Secondly, the other reading, am I not under Ged? may bear this fense; It God who is rich in mercy doth abundantly pardon the penitent, why should I, who am under him, and in subordination to him, be obdurate against my relenting brethren ?

V. 20. out God] You plotted, but being but men could not perform; but God, whole will is his deed, really made good his gracious purpole towards you. Gods goodness over-masters the malignity of men turning their evil into good, and making a medicine of a poylon. See Plal. 119.17. In this acknowledgment lofeph taketh off the thanks and praise of their preservation from himfelf, and giveth it to God. See Gen. 45. 5. Act. 3.12,

V. 23. third generation In the Original they are called font of the third, that is, grandchildren to Ephraim in the fourth, and to Joseph in the fifth degree; so Ephraim (though younger then Manalich) exceeded him two descents; for Joshua was the feventh from Ephraim inclusively, a Chron.7.26,27. but Zelophehad (who was contemporary with Joshua, and dyed in the wildernesse) was but the firth from Manasteh inclusively, Numb. 27.1. and fo Jacobs Prophecy of Ephraims more numerous posterity, Chap. 48 19. took effect betime, even while Joseph lived.

This deliverance was accomplished about one hundred and fourty years after his death, which fell out in the year of the world (as some reckon) 2300. as others, 2399, the reason of which difference ariseth from the divers account of the birth of Abraham; which some refer to the seventieth year of Terah, some to the one hundred and thirty; and some place Cainan in the genealogy, and allow thirty years to his age, whom others omit.

Nor did he defire to be removed into the Land of Canaan, because (as some Jews have conceived) there will be a readier refurrection from that foyl, then from any other, for that is but a vain fancy, which Jufephs wifdome could not imagine: But to reflifie his affured belief that God would make good his promife for the Ifraelites deliverance from Egypt, and their fettle mile for the Hraentes denverance from Egyps, ins Progenitors, ment in the Land of Canaan; and his love to his Progenitors, with whom he defired communion both living and dead; and to ftirre up the memories and meditations of his brethren and kindred, concerning the promises that God had made to their Progenitors for the possession of the Land of Canaan.

> An Appendix to the History of the Buriall of Jacob and Joseph, clearing the doubts of Stephens Speech, Att. 7.16. concerning the Burial of Jucob and the Fathers in Sichem, in the Land of Canaan.

There is none, that frequently, and with an attentive mind is conversant in the holy Scripture, but upon his reading. the History of this fiftieth Chapter of Genesis, will transmit his thoughts, as far as to the speech of Stephen in the seventeenth of the Acts of the Apolles, verf. 15, 16. and he that reads that pallage will reciprocate them back again to this flory, and it may be alfo to the 23. Chap. verf. 16, 17, 18,19,20. and the 33. Chapter and 18. verse of this Book; and to the 24. of Josh. ver. 32, and therefore it is not out of place, nor out of feafon. here to fearch for a folution of that difficulty, which, while in is doubtful in the Ads, casts back a shadow of obscurity upon those places of the Old Testament, which will not vanish untill this Text break out with fome more brightneffe of illustration, then from fo fhort an exposition as a marginal note can be expected, and fuch an one is that which is upon Acts 7.16. forementioned; for when that was made (and the fame may, again, or at least remembred and reported by the parents and | be faid of some others) the Printer had no purpose to publish a

Now for the more clear and full discussion of the doubts in the speech of Stephen, it will be convenient briefly to set down, firft, the words of Stephen!; which are thefe, So Facob went down into Egypt, he and our fathers, and were carried over into Si-chem, and laid in the sepulcine which Abraham bought for a sum

of monty, of the fors of Emor, the father of Shechem.

And fecondly, the original Stories of the Old Testament whence they are taken, and whereto they refer; as first, that in Gen. Chap. 23. Abraham weighed to Ephron the silver which in Ucn. Chap. 13. Abraham weighted to Eprova the litter which he had named, in the audience of the fons of Heth, four hundred fixhels of filter, currant money with the Marchant. And the field of Ephron, which was in Machpelah, which was before Manne, the field, and the cave which was therein, and all the trees that were in the field, that were in all the borders round about, were made fure unto Abraham for a possession, in the presence of the children of Heth: And the field, and the cave that is therein, were made fure unto Abraham for a possession of a burying place, by the sons of Heth, verf. 16,17,18, 20.

Secondly, that in Chap. 50. vers. 13. — bis sons carried him into the land of Canaan, and buried him in the cave of the field of Machpelah, which Alyaham bought with the field for a poffession of

a burying place, of Epiron the Hittite before Mamre.

Thirdly, that of Johua, Chap.24. verl.32. And the bones of natury, that of Johns, Chapta, veri32. And the works of Joseph, which the children of Ifract brought up out of Egypt, buried they in Shechem in a parcell of ground which Jacob bought of the sons of Hamor, the father of Shechem, for an hundred pieces of silver; and it became the inheritance of the children of Foseph.

To which we may adde (and it will help to folve the doubt)
a passage out of the Gospel of John, Chap. 4.5. Then cometh he to a City of Samaria, which is called Sychar, neer to the parcell of

ground that Jacob gave to his son Joseph.
Out of which we will first gather up what is without controversie: secondly we will set down the several doubts which arise out of the feeming contradiction of one Text to another : thirdly, we will endeavour the refolution of them , fo as may be with most security to the credit, and authority of the Scri-

First for the first, It is clear, that the field, and burying place emit for the first, it is clear, that the field, and ourlying place which Abraham bought, Gen. 23. from verf. 16. to the 20. & Chap. 50.13. is not the fame which Jacob bought, Gen. 33.18, 19. & John. 24.32. For they were divers in respect of name, situa-

tion, or place, of ufe, of price, and of perfons. 1. For the name; that of Abraham was called the field of Machpelah; that of Jacob had no fuch name, but was called a parcell

pelas; that of Jacob had no fuch name, but was called a parette of ground which be bught of the (un of Hamor). John 4.32. which be gave unte bit for Jophy, John, 4.5. and which became the inberiance of the budden of Jophy, John 4.31.

2. For place; the field of Abraham was before, or over against Mamure, or the field of Abraham corruptly call in our Serous standy of John, Joh of Ephraim, at about the diffance of 22, miles, accounting for a mile, as much in length as takes up an hour in ordinary tra-

2. For price; that of Abraham cost four hundred shekels of silver, Gen. 23.16. that of Jacob cost but an hundred pieces of filver, Josh 24.31. Heb. an hundred lumbs, or an hundred filverlings , stamped or marked with the representation of a

4. For use; the field of Abraham was bought for a burying place at fift, and there Abraham and Sarah his wife, Isace and Rebekah his wife were buried, there (saith Jacob) I buried Leah, Gen. 49.31. and there Jacob bespake his own burial place, vers.29,30. Chap.50. vers.5. and there was he buried, Gen.50.
13. but the field of Jacob was bought for another purpose, and was first used , not for a burial place for man, but for an Alear for God, Gen. 33.20. although afterward the bones of Joseph were buried there, and it is probable also, the remainders of the other Patriarchs.

Fifthly, and lailly, they differed in persons, both buyers and fellers; for Abraham bought his field of Ephron the Hittite, Gen. 23.17. Jacob bought his field of the fons of Hamer, Josh 24.32. Act.7.16.

Secondly. It is manifest, that these two purchases, being so diflinft in themselves, seem to be confounded in the speech of

which is not true, in the name of another; for there may be an Historical truth, where a moral truth is wanting : as where Moses writeth that Jacob faith, I am Efau thy first born, Gen. 27. Motes writeth that Jacob latth, I am Efait th July 10078, Gen. 27.

19,24. and Ezra, Jeremish, or Hezekish, or who ever was the Pen-man of the fift Book of Kings, wrote an historical truth, Chap. 13.18. where we read, that the old Propher faid to the young, that an Angel had spoken to him, to bring him back to take refreshing at his house, though in him that spake it, it was

Fourthly, If Stephen (making a long speech on the sudden ) did miftake, and mifreport force what of the Story of the Old Testament, that cannot prejudice either the truth of Scripture, or the holinesse of Stephen, or that assistance which he had from the Holy Ghoft, though it be phrased she was filled with the Holy Ghoft: ] for that doth not import a perpetual , and ininfallible guidance of the Spirit in all particulars, as hath been

observed in Annot, on Chap 46.27.
Secondly, These propositions premised, the doubts to be discuffed are partly general, partly particular.

Firft, The generall doubt is, how it can be faid, that Jacob; and the Fathers, (whom Stephen calleth our fathers) were carried into Sichem, and there buried, Act. 7. 16. fince we read onely of the buriall of Josephs bones in that place, Josh, 24.

Secondly, For particulars, the doubts are two; First of Abraham. How the Fathers can be faid to be laid in the fepulchre which Abraham bought of Hamor, when Abraham bought his burying place of Ephron, Gen.23.16. and Jacob purchased the burying place of Epiron, Gen. 23.16. Min Jacob Villedon Infection of Bell of Hamor, Joft 14.32.

Secondly, Of Hamor, whereof there are three feruples. First, whether he were the father, or the for of Sichem. Secondly, when

ther the Father of Ephron were called Hamor. Thirdly, why Hamor is faid to be the Father of Shechem, ra-

ther then of any other of his fons.

Thirdly, For resolution of the doubts; To the First show it may be faid that Facob and the Fathers were buried in She-chem, when we read only of Josephs bones that they were brought thither, Josepha, is no denyal of the rest. Secondly, Though is be not mentioned in the Scripture, it might be revealed to Stephen; as the names of Fannes and Fambres, the enchanters of Egypt, though we find them not in the Book of Exodus, nor in any other of the old Testament, S. Paul knew and wrote their names, 2 Tim. 3.8. and Jude knew of the Prophecy of Enoch, whereof there was no mention in the old Testament, Jude verf. 14. Thirdly, It is very probable, that what Joseph required concerning his bones, was done by the rest in conformity to his example.

But the greatest doubt is concerning Jacob, who was certainly buried in the sepulchre of Abraham, as the rest were not. Whereto the Answer is divers.

Firft, Some say, that they were buried in Shechem, but were Fifty, Some lay, and they were outlean in Section, but were removed to Machpelat by the Shechemites, as not enduring them to lye in their foyl, out of a malignant remembrance of that which was done by Simeon and Levi againft their people and city; but it is not probable, that they that liked them so little, would honour them fo much, as to bring them fo far to

an honourable burying place.

Scendly, Some conceive the words may be diffributively taken : for as there be two forts of persons spoken of, and two places of burial, the one, that is, Jacob, might be buried in Abrahams burial place, the reft at Shechem; but the words feem rather to be spoken of one burial place, then of two.

Thirdly. That there is no necessity of either of these answers, for though Jacob and the rest be joyned together in a state of mortality, Act. 7.15. yet the 16.ver. of their burial may be confined to them, as the next Antecedent, without taking him into their number, as rouching the burial in Shechem, though he, and none but he, of those that dyed in Egypt, were buried in the sepulchre of Abraham.

To the second Doubt (how the Fathers can be faid to be laid in the fepalchre which Abraham bought) divers answers are gi-

First, Some conceive there is some misprision in the transcribers of the Scripture, who miltook the name of Abraham for Faceb : but that is not like to be true, nor fafe to admit : not factor; but that is not need to be true, not need admit; not the first, because all, or most copies have it so; not the second, for if the original, wherein so many copies are concurrent, should be corrupted, it would extenuate the authority of the ho-

Secondly, Some rather think (and it is more like, and leffe dangerous) that Stephen miftook the name of Abraham for Ja-Against which answer, if it be said, that his adversaries, if he had been so mistaken, would have taken him with it, and reproached him for it. The reply may be, that their rage against Thirdly, That though that were granted, and therewithall him was fo great, that it might be they took no notice of his erthat Stephen erred, that cannot impeach the truth and autho- rour in a matter of no great moment; or if they did, it might be

This passage is applyed (by the Apostle) as a representation of Baptisme, 1 Cor. 10.2. to which it may be likened in divers respects: as first, that Baptisme by water is a means of fafety to Christians, so was this unto the Ifraelites. Secondly, that their going in the chanel, (the waters on each occondly, that their going in the chance, (the waters on each hand) was as a being in the grave, and we are faid to be bavied with Origh by Baptime, Rom. 6.4. Thirdly, their coming fate to the shore, was as a refurrection after burial: fo for such as are baptized, by immersion, or dipping the water by Baptisne, the atising out of it, hath the fante retemblance, though that manner of Baptizing be not necessary, as some would inforce, from the fignification of the word: for the contrary appeareth, Mark 7.4. Fourthly, fome Expositors upon 1 Cor. 10. 2. say (though but by conjecture) that as they paffed through the fea, fome drops of the raifed waters, were sprinkled upon them: and and some also from the cloud, that was above them: but if that were not fo, the cloud preferving them from the fcorching heat, fignified fecurity from the burning indignation of Almighty God: from which Baptisme if inward as well as outward, is an especial protection, Mark 16.16. and it is to be noted, then when Chrift was Baptized, the Proclamation of his well-pleafing acceptance was made from heaven, Mar. 3 last. wherein is the fafety of all the faithful, who put their affiance in him. Lafly, the univerfality of Baptifine to both fexes, all ages and forts of persons, is represented by this passage through the Sea, in that (as the Apoftle faith) they were all baptized in the cloud, and in the fea, for both fexes, women as well as men, children as well as those that were of ripe years, Gentile Profelyres (a mixed multitude, Exod. 12.38.) as well as Jews, were under the cloud, and paffed through the Sea.

And in the next verfe, the words are : And he was there Iffac. And in the next vertex the words are: Anne ne was sorre with the LORD (fourty dayes, and fourty nights: be did neither eat bread, nor drink water), and he worte upon the Tables the words of the Covenant, the ten Commandements. Answer. First, it is plain (by fundry fore-cited places) that the Lord (and not Moses) wrote on the Tables, both those of the first and second making. Secondly, for this place (it being somewhat obscure ) it is to be expounded by fuch as are clear, even those fore-cited, and fo taking that clause of Moses, his fasting by way of parenthesis, the word [He] may be referred to the Lord, not to Moses. Thirdly, for Moses his writing, it is not to be limited to the ten Commandements, on the Tables of Stone; but to be extended to the whole Law, whereof he was to have a written Copy, for the better information both of the Priests and people, Deut. 4.14. For these Tables of Stone were laid up in the Arke, by Gods especiall appointment, Deut. 10, 2. And the Arke was in the Holy of Holies; where neither the inseriour Priefts, nor the people might come: therefore it was necessary there should be written Copies for more generall instruction. and that it was fo, is plain by the 17.0f Deuteronomy, where the King is commanded to write him a Copie of the Law in a Book out of that which is before the Priests and Levites, Deut. 17.18. The Priests and Levites then had a Copy, and that Copy was according to the writing by God commanded to Moses, Exod.

## ANNOTATIONS

On the third Book of Mos s s called

According to the Greeks and Latines LEVITICUS, but in Hebrew the name is given it from the first words wherewith the Book beginneth, which is Valikra; that is, and the Lord called.

#### THE ARGUMENT.

THE Name Leviticus, most received in Translations, noteth a principal part of the Contents of the Book, which is the fundion of the Levites; who in the general are all the Sous and male desendents of the Patriarch Levit but the office of the Priest being confined to the line of Aaron, the other Levites of the posterity of Cohath, Merati, and Getshom (who were the sons of Levi) were distinguished from them as ministerial Assistants from the principal Agents in the facrificts and other fervices of the Sactions; ; (c) that though all the Priefts were Lexited by their parentage, all the Lexites Were not Priefts by their office; for all but those of Actors Family were diffinguished. ed from them, and subordinate to them in the Priestly ministration , which take up most of the first part of this Book; whereto are added divers rites and rules concerning the faulthifteation of the people from pollution both autward and inward; and of the place where, and times when Gods foleum service was to be performed; together with promises and threatnings to quicken men to an holy care of keeping of the whole Law. The book was indited by God and de-Bovered to Moles in the second year of the popels departure from Egypt, in the year of the world, (as some reckon)
2475. (as others) 2514. and it appeareth (by comparison of the beginning and end of Leviticus with verse 15, of the
last of Exod. and with Numb. 1. 1.) that it was begun and sinished in a month, to wit, the sirst moneth of the second year before mentioned Of this Book, Hierom in an Epiftle to Paulinus, faith thus : Leviticus is a Book at hand, in which every sacrifice, yea almost every syllable, and the garments of Moles and Aaron, and the whole Levitical order breathe heavenly Sacraments; so that none may monder if from thence we shall observe mystical senses.

The word in the Original, which some Translations take up, is Minkba, and it is taken for Oblation of things without life, as Bread, Meal, Wine, Salt, Oyl: and of such things. Oblations were made for many Reasons. 1. Because God, as he was the giver of these, many reasons. 1. Eph. 2, 14, and 2. the facifice of Praife, which was fit to be joyned with an offering for Peace, that so while we beg new grace we may thew our felves grateful for former favours . And the Hebrew Writers conceive , they were called Peace-offerings , because part of them was offered to to be burned with a profane fire , unlesse haply they might use God, part was given to the Pricit, and part to him who begins to be officed, part was given to the Pricit, and part to him who bought to be officed; figuifying an agreement among all honeft utes; as is granted, in almost the like case, Levis, where as it is, and were fociably paraskers of the fame. 7. 24.

and the reason of it is, because part of the peace offering, to wit, the far and breaft were to be waved before the Altar, upon the hands of him that came to offer it, Lev. 7. 30. and he himfelf to offer it to God, and the Pricit was to take it out of his hand; and it was not lawful for the people to come into the Priests

V. 4. the two lodates ] It was not sufficient to facrifice the ear, or foot, or any outward part, which might be parted without loss of life but the inward parts must be offered, without which the creature cannot live, because the persons for whom the facrifice was offered, deferved death, and without the death of Christ could not be redeemed; and the factificing of these inward parts, fignifying the mortifying of the inward lufts and af-fections of the flesh, Gal. 5.24. having their root in the reynes or kidneyes, they are therefore here mentioned, for more ferious confideration of that part.

V. 6. male or female] In the peace-offering it was indifferent to offer either male or female, which might be accepted here; because these are by way of thanksgiving for external blessings, but in whole burnt offerings, onely the male as the chief, Ch. 1.3. See Chap.4.32. where a female is expressly prescribed; as also, Chap. 5.6.

The offering of the rump some interpret to be an intimation of perfeverance to the end ; but it rather theweth that there is not the meanest part of the creature, but God Hath a right unto it; and that be a thing never so contemptible in it self, God can make it honourable by applying it to his service, in sacrifice, as here; in a Sacrament, as in Circumcifion, Gen. 17.

Verf. I. [ Gnorance ] Either of the Law, or of the fact, which a man is bound to know, and may know; for ignorance in finne is no fecurity against punishment; it may sometimes extenuate a finne, but it cannot annihilate it, or take it wholly away, nor procure a total impunity to the finner, Luk-12.48.and if it be wilful ignorance, it doth rather aggravate the guilt, then abate any part of it : to these sinnes of ignorance may be referred finnes of infirmity, proceeding from inconfideration, when a man is suddenly overtaken in a fault, Gal. 6. 1. and it is probable it extends not to all in general, but fuch for which the confcience would more likely be touched for of ordinary deviations there was an expiation by the daily burnt offerings for the whole Church, and the facrifice of the day of A-

Anointed is especially mentioned, because for any fin committed before anointing, a peculiar oblation was not required, but onely fuch a one as was offered for the Prince, or one of the people.

finne-offering] This differs from a peace-offering; because in this the Offerer had no part, but the far and kidneys, and bloud being offered to God, or burned, the rest came to the Prieft, for they were altogether holy to God, and fo could not be carried out of the holy place by any but the Priests; nor, eaten any where but in the holy Court, Ch. 6. 26. (whence the Priests were said to eate the fins of the people) and this onely in facrifices for the fin of private men, or publick Princes; for those which were offered for the High-prict, or all the people, the far and bloud being offered in the holy Court, were wholly burned without the Camp, for the greater horrour of greater finnes : but in peace-offerings, the third part returned to him that offer ed them. Secondly, the fin-offering was to be made away the same day it was offered; but the peace-offering, in fome cases, might be set aside till the morrow, Chap. 7. 13.
Thirdly, in peace-offerings might be used oyland frankincense, but not in fin-offerings, because they make for delight and pleasure, which were to be far from a repenting sinner. Lastly, it was peculiar to the fin-offering that the bloud of the facrifice was put upon the horns of the alter, but with this difference, that in the facrifices for the fin of the High-prieft, or of all the people, (the bloud whereof was brought into the Sanctuary) the bloud was put upon the horns of the Incense Altar, verl.7. but in others, upon the alter of burnt-offering, verf.25. Vers. 3. This Law was dated at Sinai, for thence and then it was delivered, when Mofes abode to long with God in the Mount; but it was not to be put in execution, untill they had been fix years in possession of the Land of Canaan : in the Sabbatical year Deuteronomy was to be read unto the people, Deut. 31. 10, 11. Hebrew servants were to be released, Exod. 21. 2. debts were to be remitted, Deur, 15.2, and the ground untilled; and whatfoever fruits it brought forth, they must not be gathered as any ones proper goods, but left to common ufe.

ble peffeffion] Of immoveable goods, as lands, and houses, which was no wrong to them that bought or took them before, because they were not put over from one to another without the condition of restitution (either expressed or implyed ) in the year of Jubile; and the price was proportionable, more or lefs, according to the diffance, or neernelle of the year of releafe and this God ordained, partly for reftraint of concupifcence of others estates, (for men would not so much defire them upon thefe terms, as if they might purchafe them for perpetuity, to them, and their heires for ever) and partly that they should not be too proud of what they obtained, since they must be sure to part with it again; and it was likewife for the comfort of fuch as were accayed and importanted, and to preferre little an equa-lity as might keep out Tyranny and confusion of tribes and fa-milies, which were to be upheld in their estate and condition, whether of sufficiency, or plenty and dignity, wherein they had formerly been. Besides this, it may be (as some concieve) that this reflication in the year of Jubile, was a type of reflication to a right and possession of the celestial Canaan upon the found of the trumpet of the refurrection, though men forfeited their right by fin, and were (as it were) caft out of it by excommunication out of the Church below, a type, as well as a part of the Congregation of the first born above, Heb. 12.23.

V. 20. What [hall we eat the feventh year?] There was the more cause of this doubt, because the Sabbatical year and the year of Jubile coming together, they were suspended from fowing and reaping both those years: but it was as easie for God to make them amends for that forbearance, by a more abundant bleffing, as Mal. 3.10, as for a florter time. But the houses There is no general rule but hath fome exception; and here isone (of great moinent) from the ordinary redemption at the year of Jubile; houses in villages that had no walls, were to be redeemed in that year : but not houses in walled Cities; for they must be redeemed within a full year, or not at all: and this was either in favour to cities the better to furnish them with inhabitants, and to keep the houses in good repair; or for caution to the owners, that by ill husban-dry, they might not be put to part with them; or elle, because houses in cities, no nor cities themselves, were so distinctly forted to tribes, as houses in the countrey, and the lands annexed to them; for the Levites had cities in fundry tribes, and yet had no divided portion of land allotted to them, as the other tribes had: What is here faid of houses, may be applyed to some par-cels of ground in walled Towns; as that which David bought (mount Moria) for the building of the Temple in Jerusalem : the like is held of fuch grounds as yeeld no profit, as gardens of pleasure, and the potters field for burial.

Verl. 2. A Singular vern Vowes are religious promifes of our felves, or those persons, or things, which are in our disposal and power, with reference unto God, and with a purpose to binde our selves by the vow for that, wherein before we were free. So might women vow their affiltance, as by weaving, washing, making, or mending the garments of the Priests. Now if a Levite vowed any thing above the dury of his place in his ordinary course, he was to perform both his ordinary duty whereto his calling did oblige him, and that whereto by vow he was engaged afterward.

# ANNOTATIONS

On the fourth Book of Mos as called

After the \* Greek in sense, and Latine in sense and sound, both to the Numbers ; but in Hebrew it hath its name from the first words Vajedabber, and the Lord Stake.

### THE ARGUMENT.

Por the Title most in Me among all Authors except the Hebrews, viz. Numbers, it is given it from the many numbrings reported in it; the sirst whereof is most memorable, wherein the people in the second moneth of the se-cond year of their departure out of Egypt are reckened to six hundred shouland three thousand sive hundred and cons year of their atparture one of Egypt are recognized to the account chap. At ver, 46, 47, To this number are added many more viting feeting the Levites, who are not comprehended in that account, chap. At ver, 46, 47, To this number are added many more viting feeting the offerings of the Princes; a third of the Admigher of the Tabermaile; a fourth of the fearchers that were fent to discover the Land of Cansan; a fifth of the Rebell, Korah and but company ; a fixth of the fornicators joyned to Baal-Peor; a fewenth of those that were new born in the Wilderneffe, the old flock being consumed before the postession of the Land of Canaan ; and an eighth of the Cities of riginge ;

And for the Contents of the Book, it is partly Historical, partly Dollrinal; for the Historical besides the record of these numberings, we have the story of the peoples travels, their troubles, their murmurings and rebellions, their possible the state and only ments dangers and deliver meet their combats and counselfs, and the most wo sable things they did or suffered by the space of thirty nine years, wherein they rather mandered then regularly journal of the state of the space o nesed in the Desert; their sins casting them back from the borders of the Land of Canaan, when they were neer the possession of it. In this Story the order of time is not noted, save for that which belongeth to the second year of the peoples journeying from Egypt, towards the Land of Promise, and endesh at the eleventh moneth of the fourtieth year, for with that beginneth the Story of the Book of Deuteronomy, as is evident by comparing of Numb.1.1. with Deut. 1.3. For the Story of the time betwint these termes there is little or no mention of any Chronologicall Note, though there be many remarkable occurrences delivered, as chap. 16.17, 18, 19. The Doctrinall part containeth additions and explanations of fundry Lawes, some moral, more judicial, but most of all ceremonial, given by God for the Santtification and preparation of the people for the Land of Canaan, especially for their observation when they were possessed of it : Some observe many parallel references of the New Testament to this Book, which are not unwors thy of a fersons consideration . at

V. 21. He hath not beheld iniquity in Jacob, neither bath he feen perverfenefs in Ifrael The divers readings of thele words. and the abuse of them to countenance some new conceipts, tending to corruption in Doctrine, and diffoluteness of life, hath made the clearing of them forcewhat difficult. If we thould take them for the words of Balaam (as a wicked man loving the wages of unrighteoufnels, and defirous to curfe where the Lord hath bleffed) we might paffe them over without any great feruple ; nor need we be follicitous to fuir them with an Orthodox expolition; But they are generally conceived to be the words, not fo much of Balaam, as of the holy Spirit, which overruled the spirit, at least the tongue of the mad Propher, and made him fpeak the wildom of God in a mystery; which some heritical Novelifts would turn to a mystery of iniquity, sup-"followed fometimes with terflings among men 3 lo was it with at all in Jacob, nor any transgression in Ifrael. For relutation of

which where a Giolic, we are to dittinguish of the a ribiguities of terms in this Sentence, whereof the parts are, 1. The Perfons, 2. That which is artibuted to them. 1. For the Perfons, they are two, God, and Jacob or Iffael. For the fift, there is no doubt, but the fift word he, referreth to God, called El, verf. 19. and in the 21, verf. Jehovah. 2. For the other Perfon, it is noted by two Titles, Facob and Ifrael : for the great Patriarch of that Nation had those two names, and in this order, for he was first called Iacob, and afterward Ifrael, of which names you may read.Gen.25.16. & 31.18. and the reason of them, Gen.27.36. read, cen. 25.16. & 31.20. and the readon of them, Gen. 27.50. & Chap 31.28. by both may be understood, either the person of Jacob or Ifrael, or his posterity; and the posterity may be conceived under a double distinction, the one as taken rotally for ceived under a double distinction, the one as taken totally for the whole body of the people, or particularly for some eminent persons among their Tribes: the other distinction is, that it may be taken subjectively or objectively; subjectively, as suppoling Ilracl to be the subject in whom that evil is inherent; or objectively that it is the object against which that is committed. This for the perfons ; Now for the attributes, they are various, according to the difference of the persons, to whom they are aferibed ; as to God feeing, and that may be interpreted three waies : 1. For a feufible apprehension ; 2. For an intellectual contemplation; 3. For a moral approbation. Secondly, for that which is attributed to Jacob or Ifrael, all that is fet down under two Titles, iniquity and perver fenefs, of which the Original words are to be explained, and for them, the former of them rendred iniquity, is Aven, and Aven fignifieth, as Schindler fleweth, Pentaglot. col. 38. First of all, grief, forrow, fadnes; Gen. 35. 18. voient threngin, injury, injudice, (which caufeth grief also) and diniquity, Job 11.14. Prov. 20. 20. Plal. 5.5. Pourthly, fome take it for some hainous inquiry, for kinde or for degree; in particular, for Idolatry, and for and Idol in particular, Efa.66.3.

V. 21. the [hout] That is, a valorous shout of a pullflant ting and his people, encouraging each other to the Bartel, and victorium thou, as having obtained the victory in the bartel.

V. 21. the [hout] That is, a valorous shout of a pullflant sing and injury and injur Schindl. Pentagl. col. 39. but Arias Montanus translates it vanity, and there may well be a communication of these two, for an idol is nothing in the world, a Cor. 8.4, and so we finde that harh norm on his note, Plin. Hist. 1, 8, c, 20, the other on his Bethel when it had been the habitation of the golden Calf, I King. 12. 28,29. and afterwards was called not Bethel, but Beth-aven, that is, the house of vanity, Hos. 4.15. the like sense is to be given it upon the same ground, Amos 5.5. The other word which is here turned perverfents, is Hhamal or Ghnamal, which fignifieth toylfom labour, or moleftation of the body and minde, both paffively, Pfal, 25, 18. & 73. 5. and actively, Pfal, 94. 20. & 55. 11. & 7. 15. so according to the Greek version, and the French expresseth it by extortion.

Now out of Application of these distinctions, we shall deduce the Explication of the words, which we will fet down; First, by way of Refutation of the false Expositions that are put upon the Text. Secondly, by fetting down and afferting the true

For the first, we say, that by Jacob or Israel in this place, is not meant the person of Jacob or Israel, the son of Israe, the father of the twelve Patriarchs, but the people or nation descend-

Secondly, that not fome few of the better fort of the people are here meant, who as justified by faith, and walking with God in an holy life, might be reputed righteous, as Enoch, Gen. 5.22. Noah, Gen. 6.9. Job 1.1. and Zachary and Elizabeth, Luk. 1. but the body of the people, because they were the object, both of Balaams sight, and of Balaks spire, whom he desired should be

Thirdly, it is not faid, nor could be faid, that these had none iniquity, nor that they were chargeable with no hainous iniquity, nor that they were free from idolatry, for they were guilty of hainous iniquity, of grofs and brutish and bloody Idolatry. Sec AC.7.42. Exod. 32.32. Pfal. 106.37.

Fourthly, nor is the meaning, that God did not fee that evil that was in them, or done by them; for though in a literal and Physical sence, he doth not see as we do, because he hath not a body and organs or instruments of sense, as we have, yet he difcornerh all things better by his intelligence, then we do any thing that is obvious to all our fenfes, Efa.38.17.

Fifthly, not that God did take no notice of their wickednesse for he did fo, and punished them for it, Deut. 32.27, 28. & Pfal 78.60,61.

Sixthly, nor is it to be thought, that God having taken notice of their finnes and chastifed them for them, he forgat what they or himfelf had done; for though forgetfulnelle be fometimes ascribed to God, as Jer. 31. 34. and elsewhere, and it be said of him, that he casteth the sine of his servants behinde bis back, Esa. 38.17. and into the depth of the Sea, Micah 7.19. by fuch expresions, we are to understand a gracious forgiving, not an oblivion or forgetting; for if God could be ignorant of any thing, or forget what he hath known, he could not be Omniscient, as he is, knowing all things as he doth, Heb. 4.13.

which wicked Gloffe, we are to diftinguish of the aveiguities of | through Christ, seeth no more sinne in them, then is inherent in him; for they are made the righteoufness of God in him by imputation, as he was made unrighteous by imputation of their transgressions, 2 Cor. 5.21. but this though very true in these, as to this Text may be impertinent. This for the erroneous Expolitions of the words, now for the Orthodox interpresation of

Chap.xxiv.

First, Both the Hebren word Aven, which in our English Translation is rendred iniquity, and vanity, and Hhamal, or Ginamal, which is expressed by Transgression and perverseness, fignific in their Primative fenfe, rather moleftation, griet, wrong, violent frength, injury, mifery, then fin; and fothey are to be taken in this place.

Secondly, they fignific passively, and so the meaning is not aftively, that they do no evil, or wrong, or violence, or moleftation to others, but that others shall not do any thing to them; or that if they do, God will not fo fee it as to approve of it, but will thew himfelf in their defence, by way of opposition, to the punifiment of those that do oppose them to oppress them,

Thirdly and laftly, the words may be expounded, either of the time paft, present or to come, as if he had said, God neither hath, nor can, nor will give up his people to the wicked will of their enemies, because he loves them, and because should he defert them, and give them over to their enemies hands, they would exalt themselves not onely above his people, but against himfelf, and would break out into blasphemous brags of themfelves, and reproaches of him, lfa. 26. man-flayer] There was no City of refuge for any other offender but a man-flayer; whereof the reason may be, because bloud-shed is pursued (especially by those who are of the same flesh and bloud with the man slain) with most violent and bloudy revenge, without taking leifure to confider the fault as well as the fact, and the degree of it . whether it deferve to be punished with death or no: The man flaver here allowed a place of protection is fuch an one as flew another ignorantly place of protection is such an one as new anomer ignoramy and againfil his will, ver.11,15, of this Chapter, and John.0.3; to keep him from the rage of the purfact, untill his cause may judicially be heated; and the purfact was he who was next of kin to the flain man; who, if the layer were condemned to death, was to do or to fee execution done upon him, ver.19. But in was to do or to fee execution done upon him, ver.19. But in what City should he be tryed? some think in the City whither he hath betaken himself for refuge; but it is more probable to be in the City where the man was killed, or in that which was next to the place of flaughter, whither he was to be brought with a fufficient guard, and his cause heard before all the people, verf. 12. and if he were found guilty of witting and wilfull inurder, he was to be given up into the hands of the next kindred of the flain man, to be put to death; if he were cleared of from whence he was brought, and there to continue until the High-priefts death, before which time if he were taken out of his City by the avenger of bloud, (the flain mans living kinfman) he might be flain.

After the manner of the Hebrewes, from the first words. Elleb haddebarim, that is, thefe are the words; butthat which is most in use with us is derived from the Greek, viz. DEUTERONOMIE.

#### THE ARGUMENT.

He word Deuteronomic signifieth the second Law, it being an iteration of the Law, or a second Edition of it with addition of some the Lawre, and a more clear and copious explication of the old, and it e. Law was declared again, because the generation to whom it was published at Mount Sinai was now dead, and among them declared again, becamse the generation to whomsi was published at Mount Sinai was now dead, and among them Aaron the High prieft, for he dyed in Mount Hor, Numb. 20, 25, the fifth moneth, and the first day of the moneth, in the sourcest he and the first day of the moneth in the sourcest he and the first day of the moneth in the sourcest he and of Egpt, Numb. 33, 38, and in the 122, pear of his age. The same year did Moses write this Book of Deuteronomie, (except the last Chapter, which some aferibe to Exta, others, more probably, to solone has seen eventually successful and the same shade also, which was in the 120. year of his age and in the year of the World, 2492, and before the year of Christ, 1456, years. This Book (not outly for the excellency of the Lance, and mountained the last word of Moses, intered a sittle before his departure out of the world) was sometimed as the content of the world of the solone shade the same shade the same year of the world of the solone shade the same year of the world of the world of the world of the same years.
